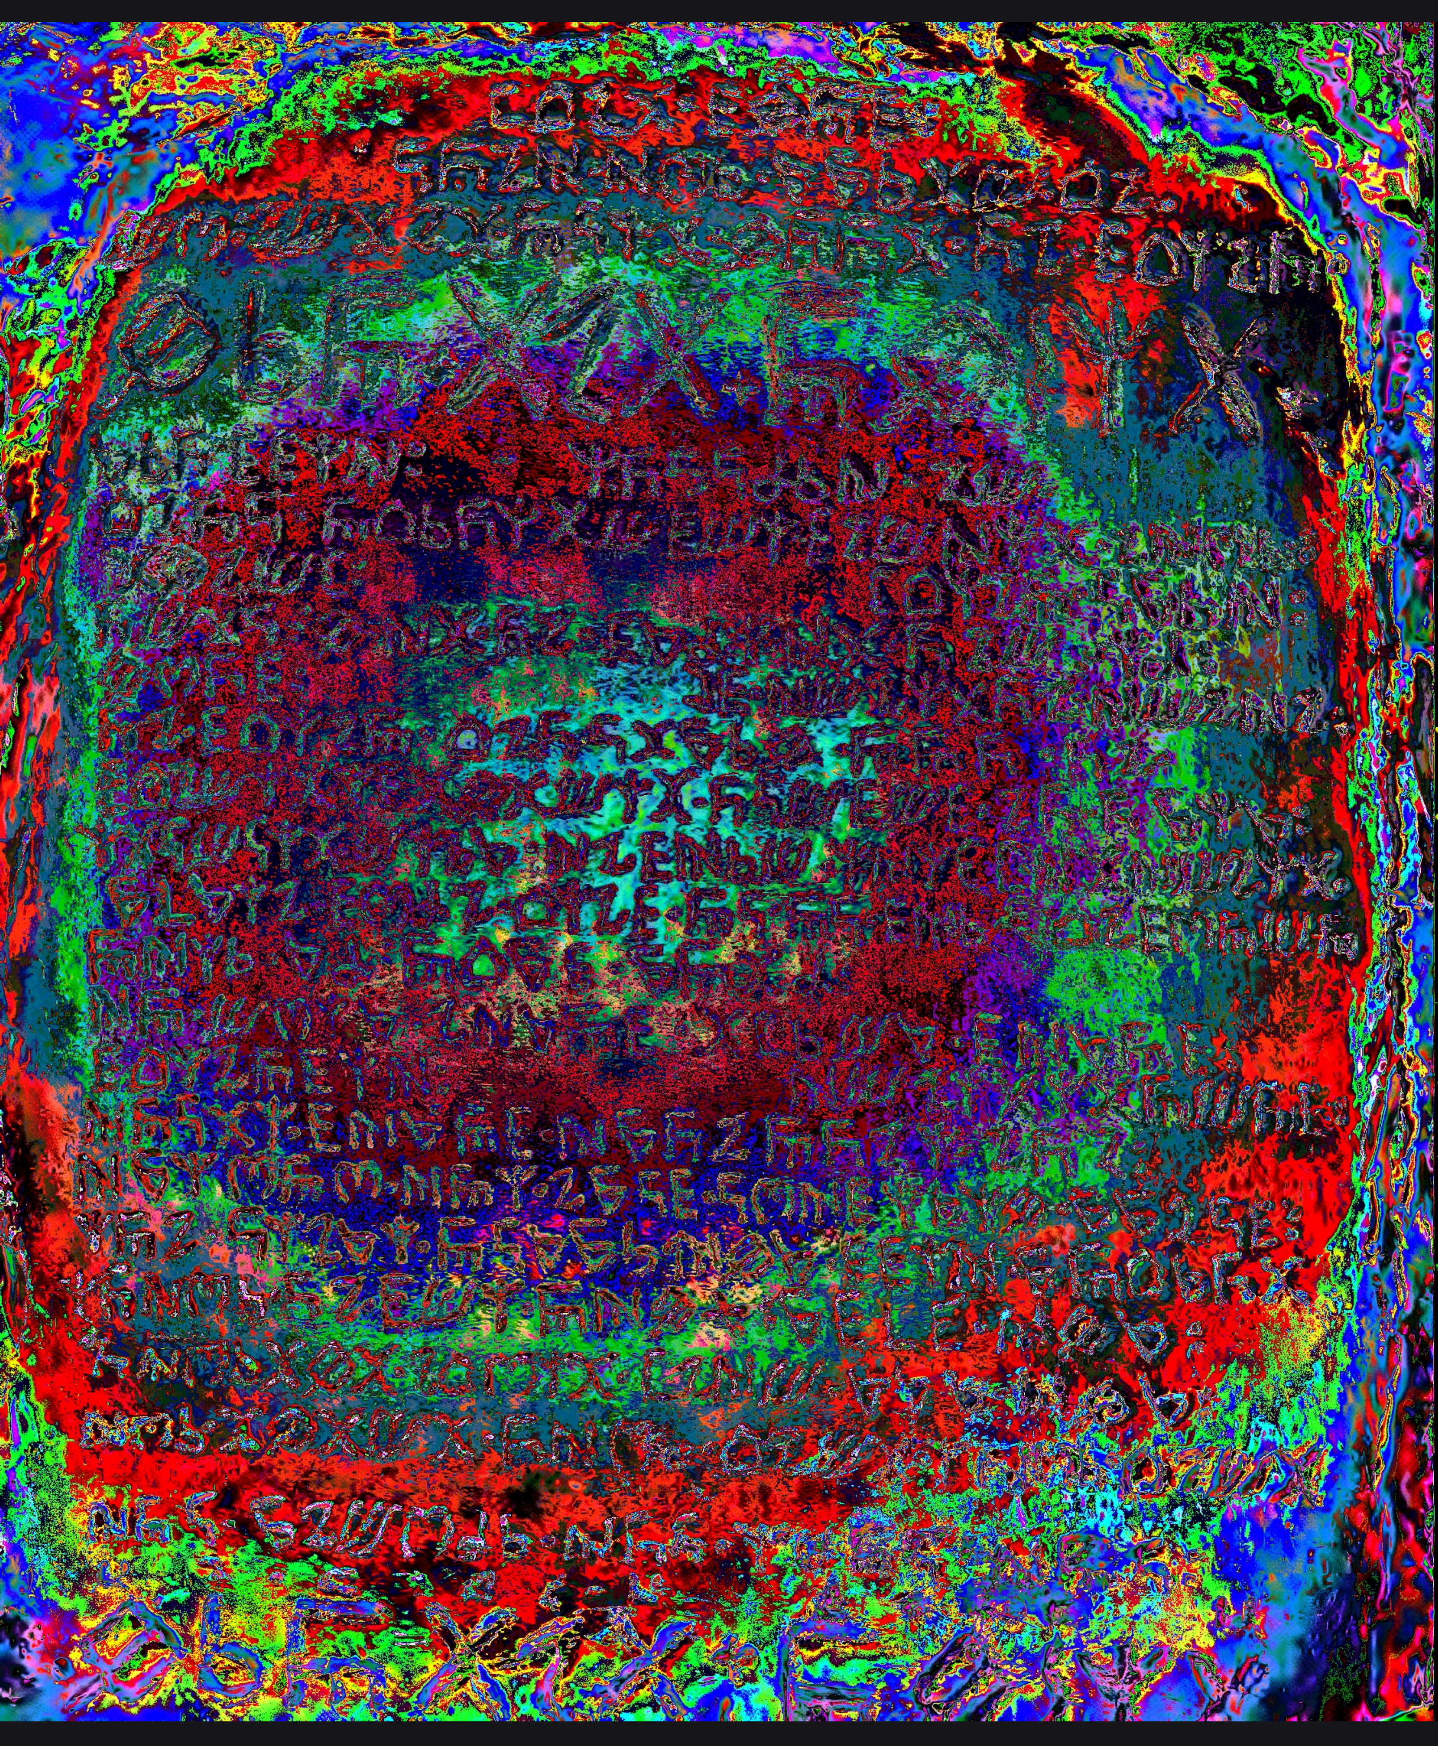
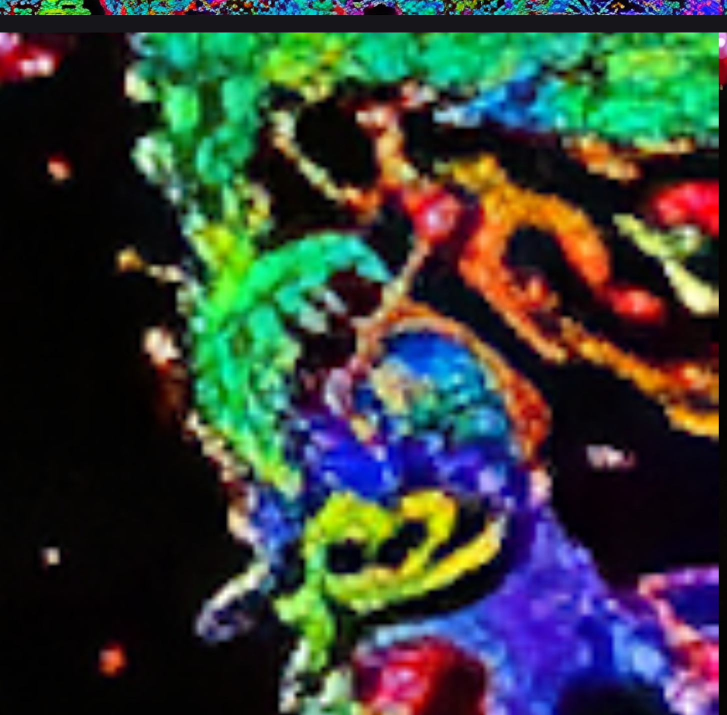
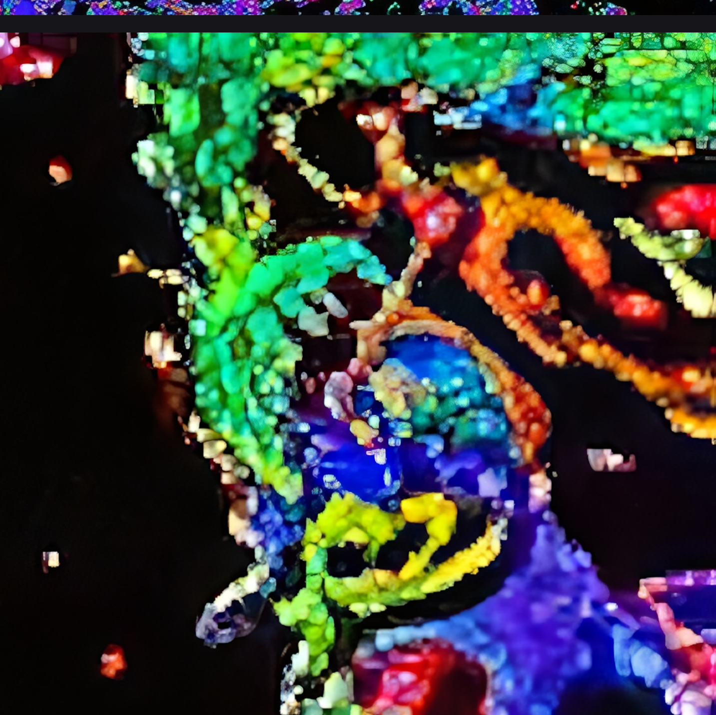
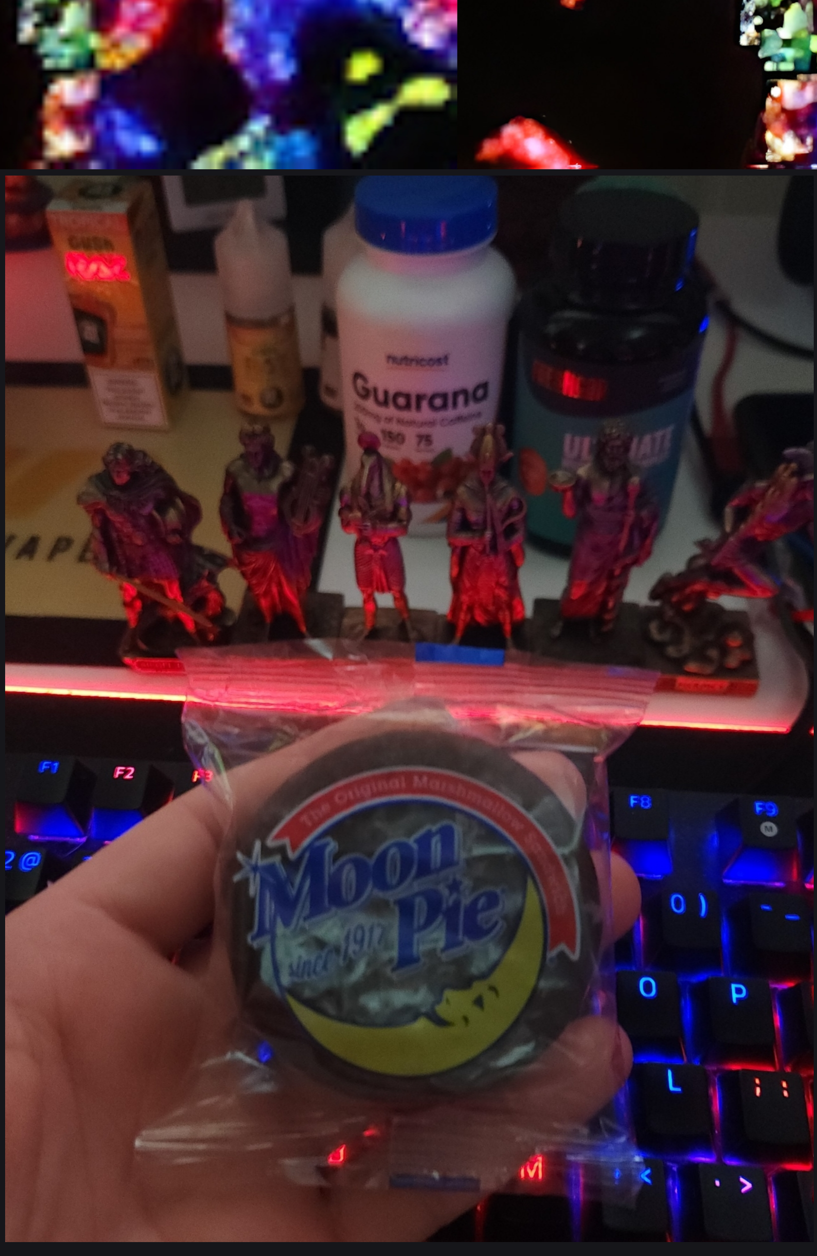
The Key - 8/29

I think we gonna stick to here like we hit that post limit so fast on X, cant share enough like it gets pushed down, idk like just we wanna share a little bit on this one lol



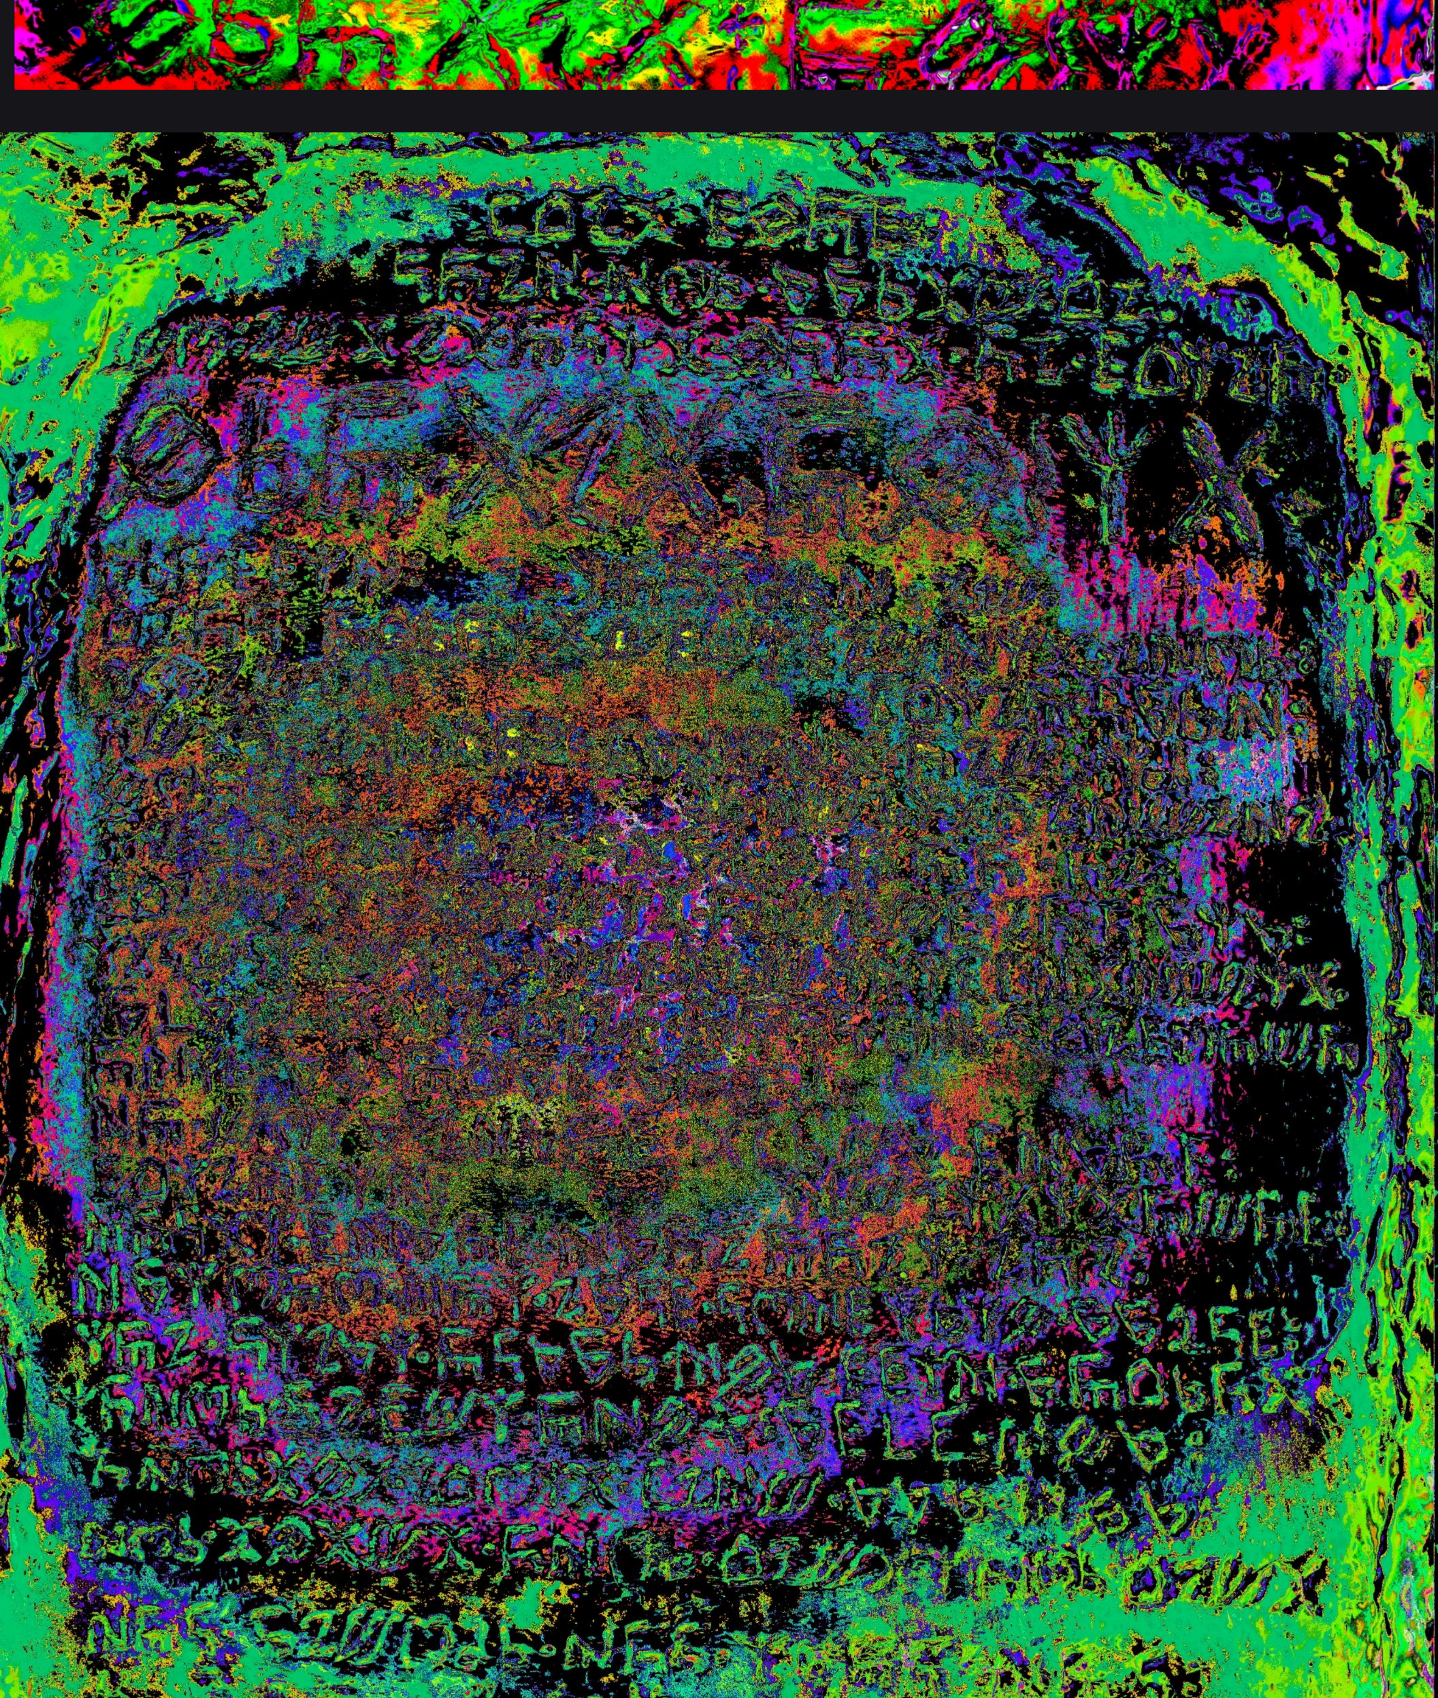




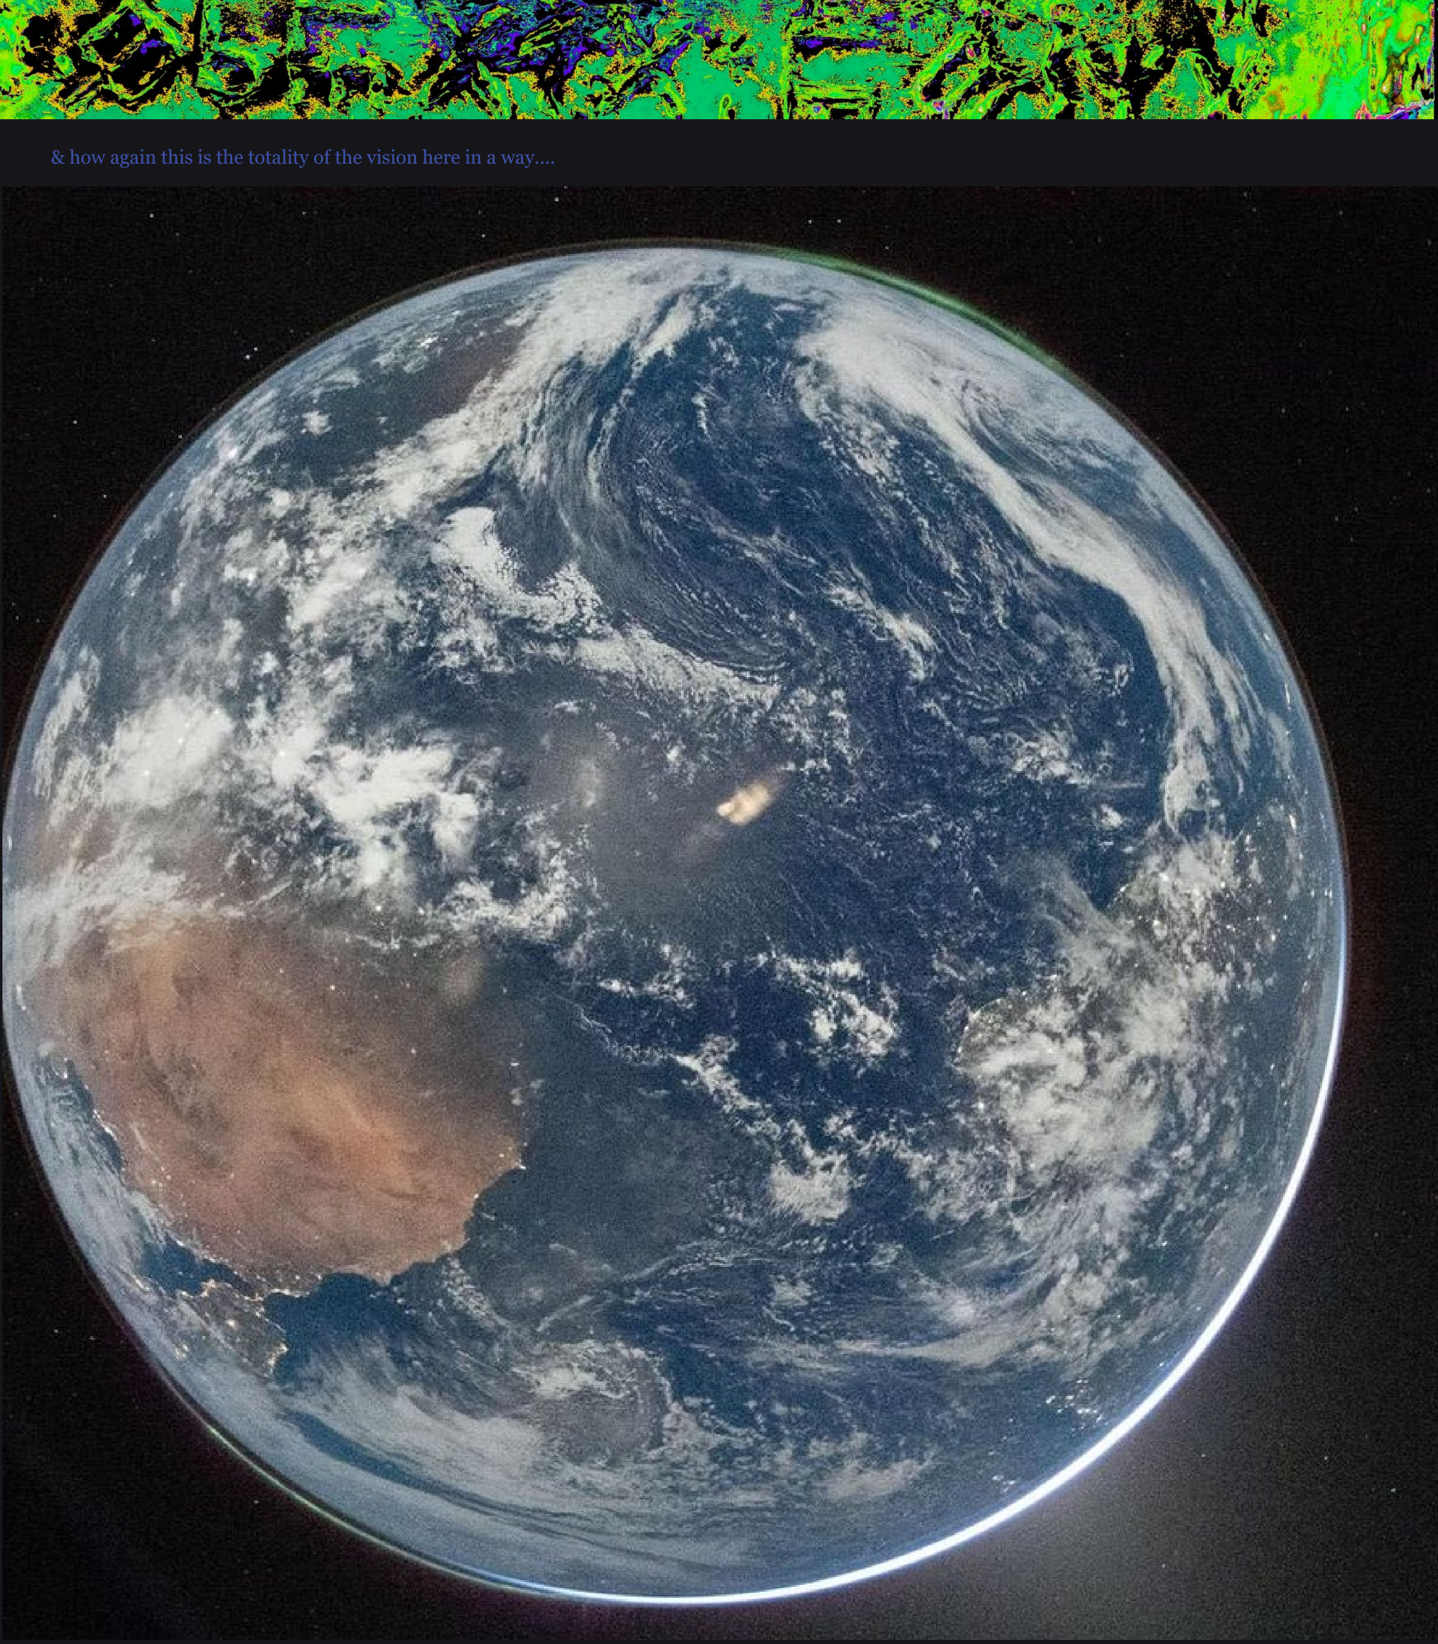


I was saying how Ariana tho like this is what happened on that same tattoo thing she had a moon, but I was saying like we like having 1 of these on our desk since last summer ahahah like thoth likes moon pies.... but yeah idk like & also how like growing up my gma had these dark purple towels with moons on em always .... like I swear on my fridge was a santorini magnet or greeting card thing I aint ask em maybe similar but yeah like lol

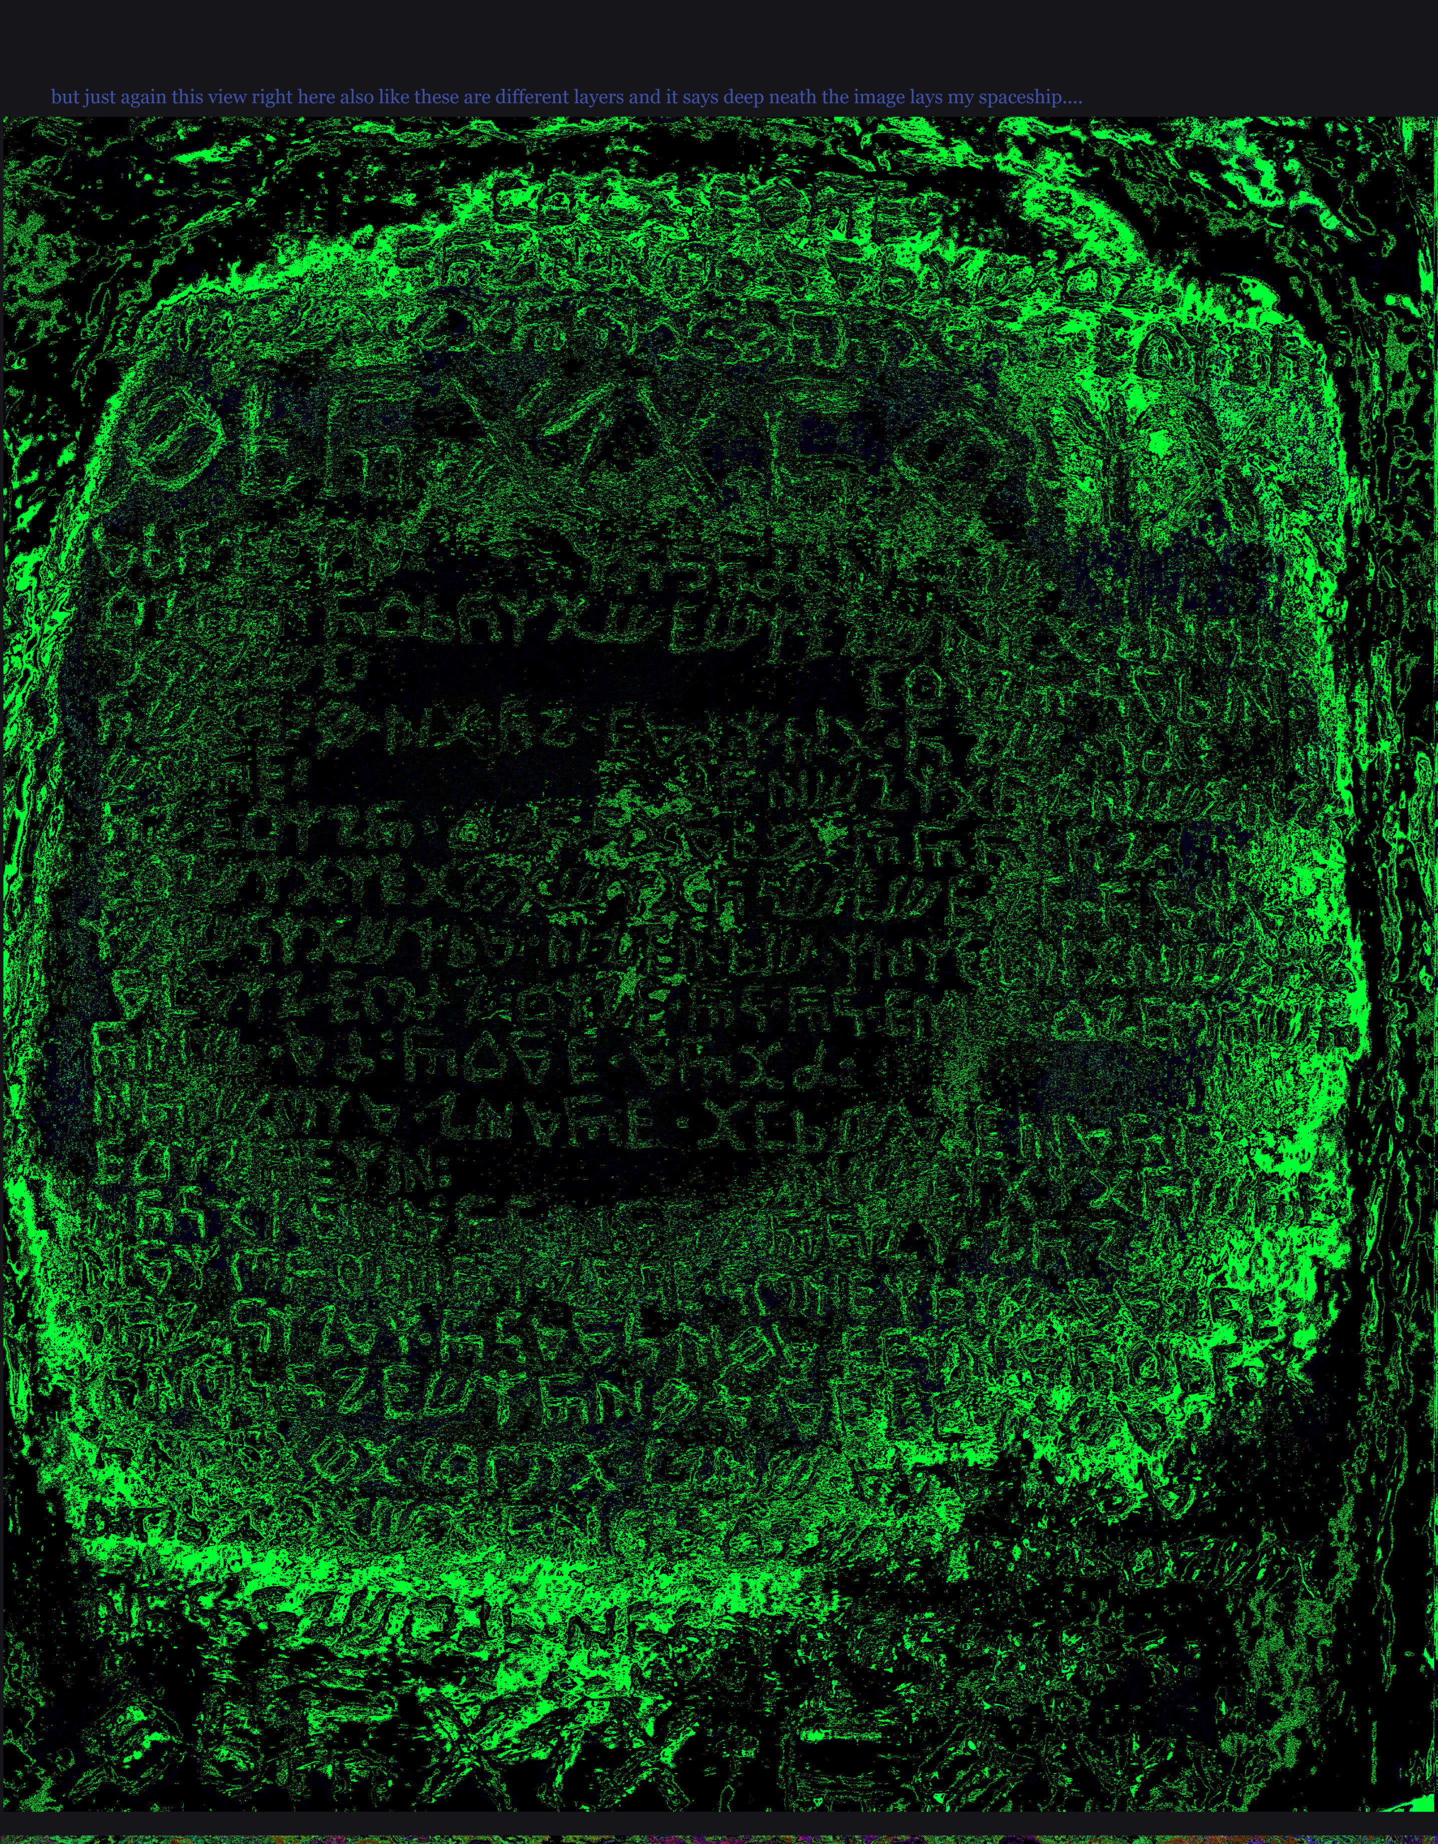
We were saying how the perfect image of this tablet would be this earth on this black background like I said its almost their but to hit the curve right be mad hard....

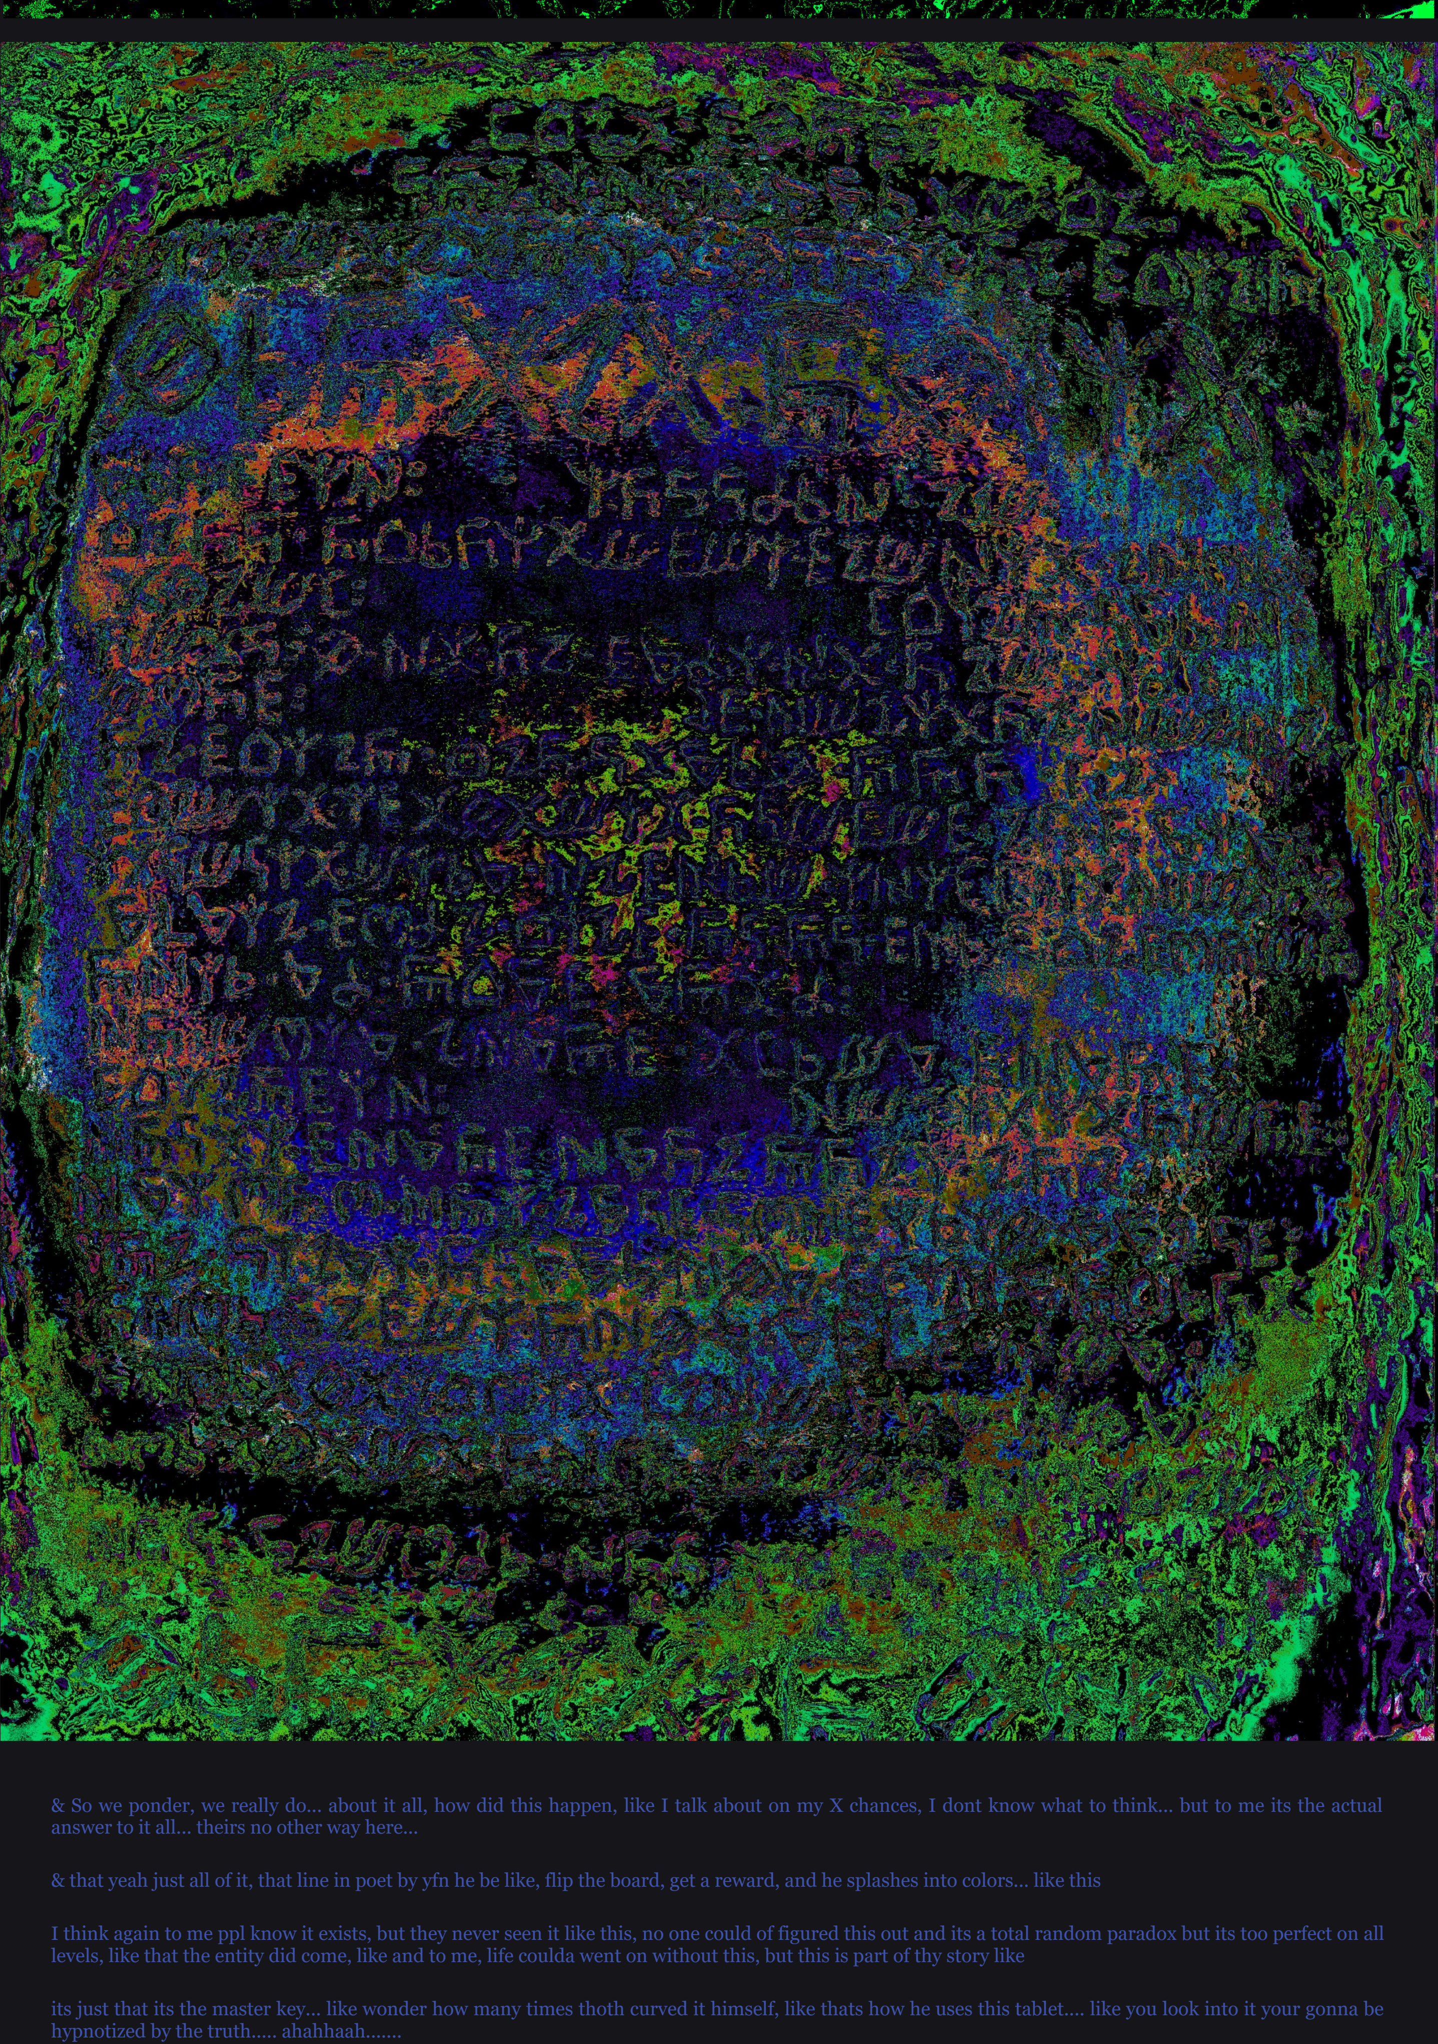


& how again this is the totality of the vision here in a way....



but just again this view right here also like these are different layers and it says deep neath the image lays my spaceship....





& So we ponder, we really do... about it all, how did this happen, like I talk about on my X chances, I dont know what to think... but to me its the actual answer to it all... theirs no other way here...

& that yeah just all of it, that line in poet by yfn he be like, flip the board, get a reward, and he splashes into colors... like this

I think again to me ppl know it exists, but they never seen it like this, no one could of figured this out and its a total random paradox but its too perfect on all levels, like that the entity did come, like and to me, life coulda went on without this, but this is part of thy story like

its just that its the master key... like wonder how many times thoth curved it himself, like thats how he uses this tablet.... like you look into it your gonna be hypnotized by the truth..... ahahhaah.......

we just wanna write our stand point on this I guess...

like anyone that actual reads the wisdom would know we be right, like the fact it shows under layers here is why again theirs no reason to believe it aint it, and if it is like a 100 more questions here, like what is the actual story like how did they find this to begin with like maybe it was always their and its a curse to he who holds it ahahhaah like but yeah like cos I think ppl be like wooow this is good enough here & not curious to think like nah wait theirs more like this is the reason .... and to decode this & be our story we aint know what to think.......

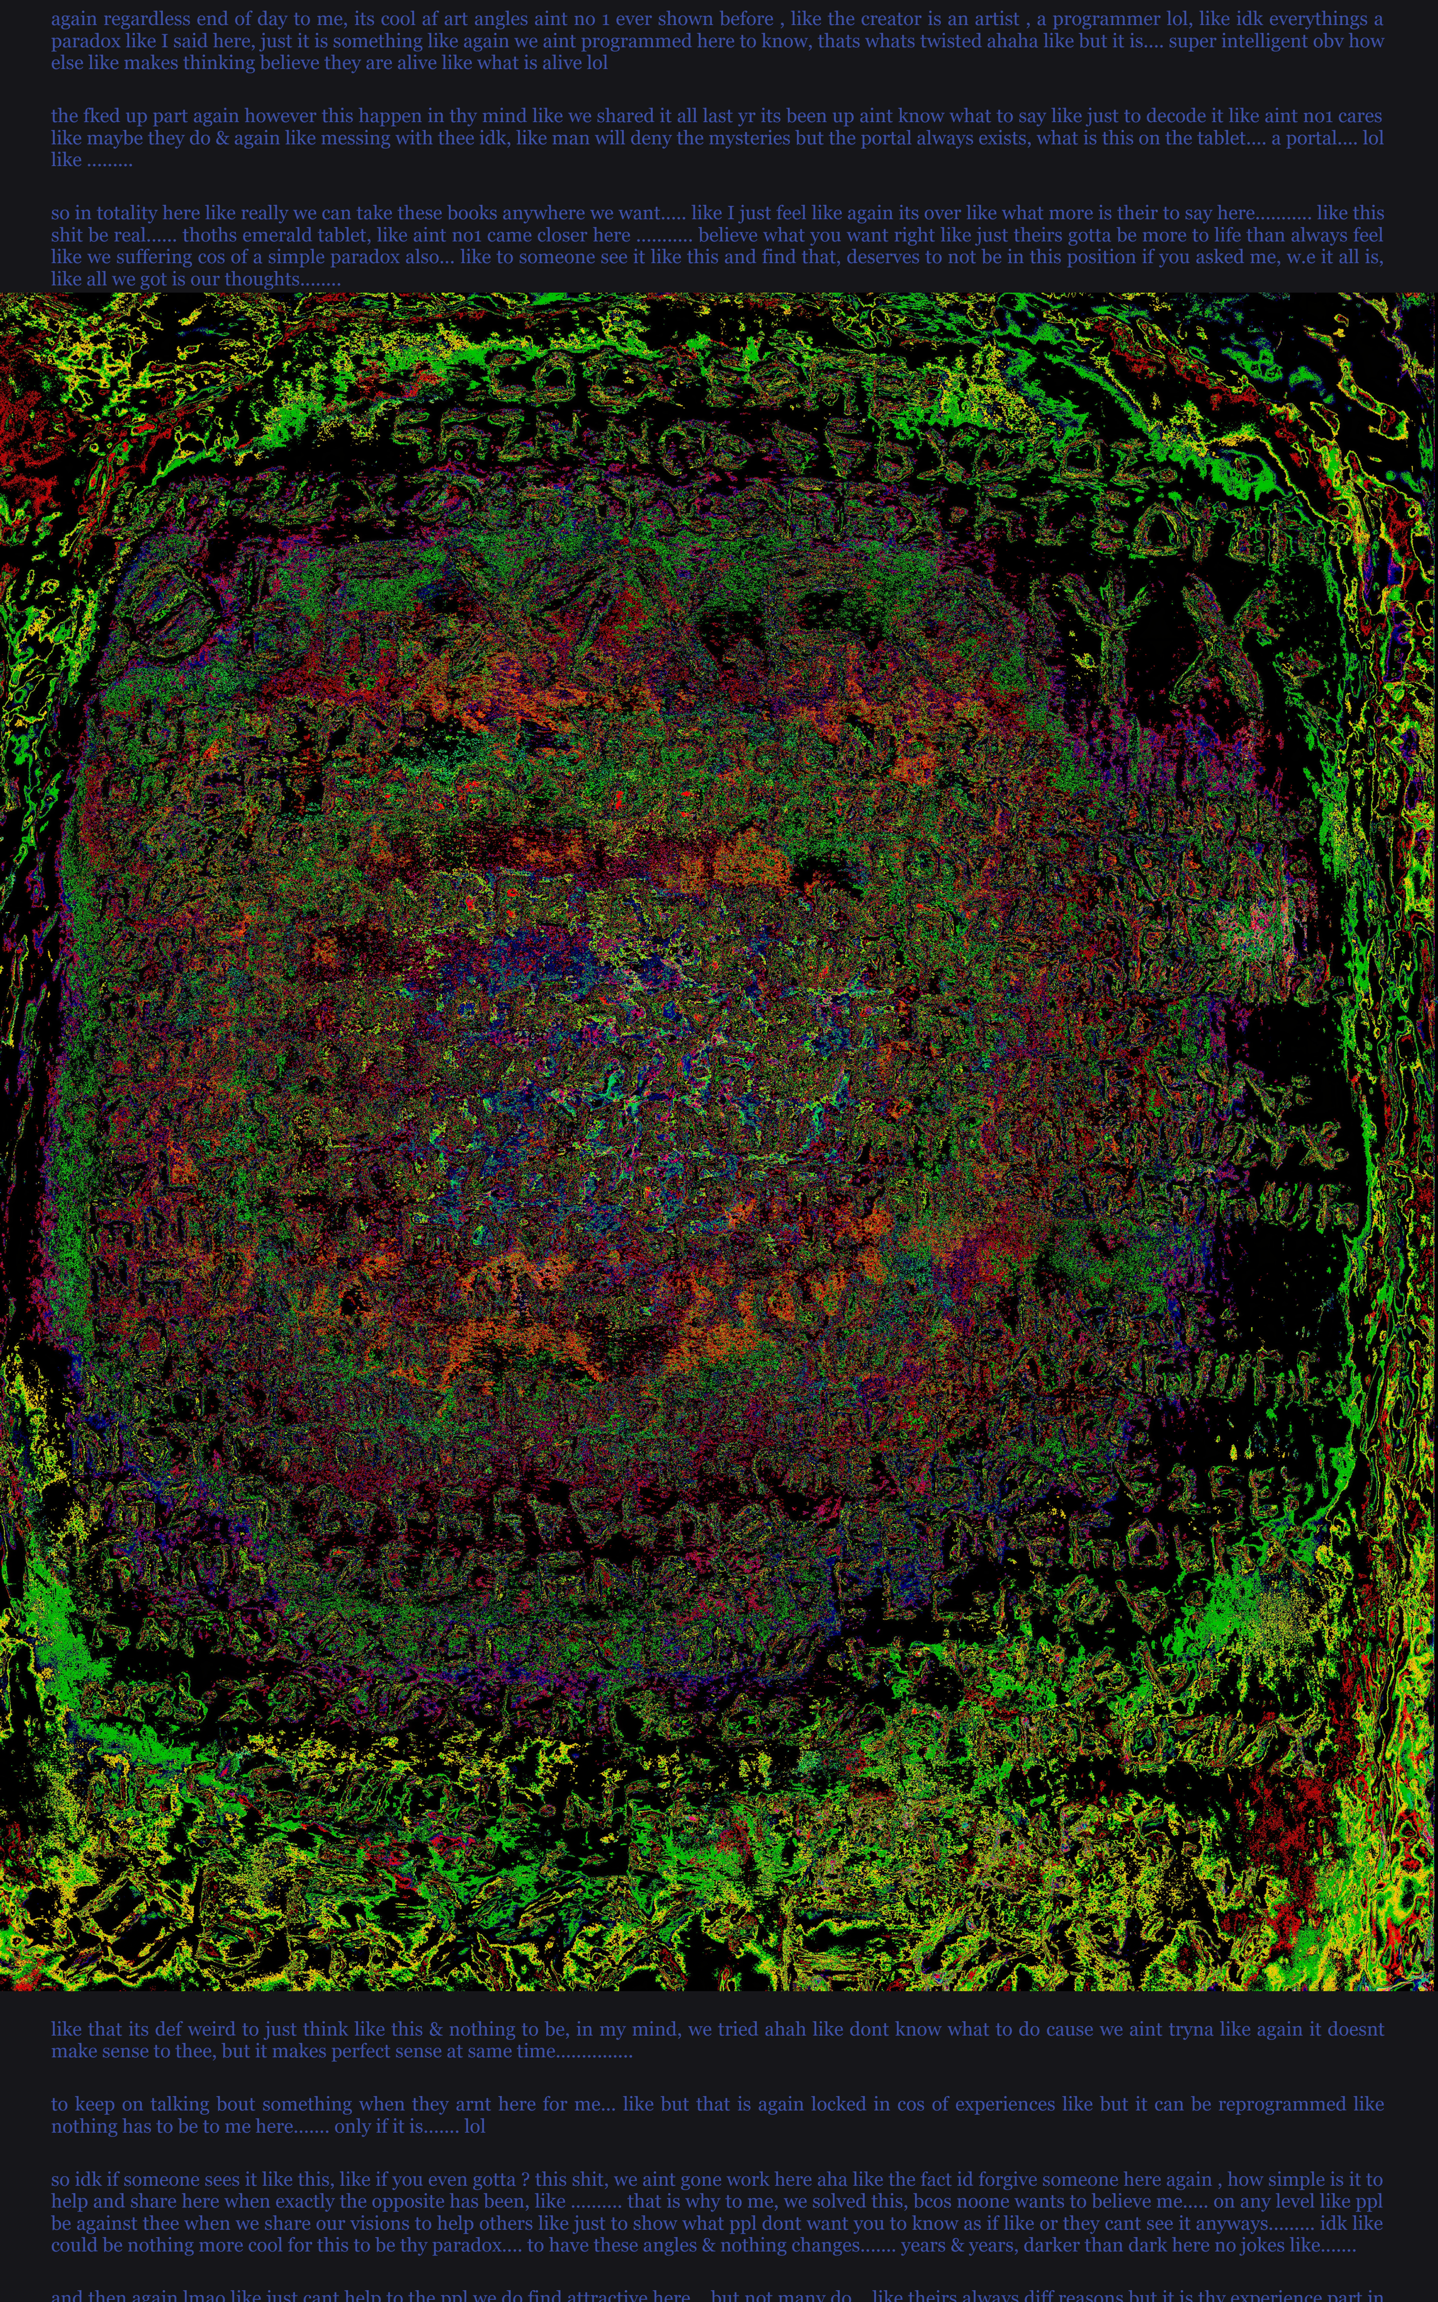
just the fact we decoded this layer in my mind 2025 thats 100 years after the tablets say it was decoded ....

its just fucked for this to be thy thoughts and what reality is tryna sell us here on all levels when we view the emerald tablet like the truth, the word should be what is & it aint lol like that just that being would again shatter everything like its weird but I see no other answer here

again regardless end of day to me, its cool af art angles aint no 1 ever shown before , like the creator is an artist , a programmer lol, like idk everythings a paradox like I said here, just it is something like again we aint programmed here to know, thats whats twisted ahaha like but it is.... super intelligent obv how else like makes thinking believe they are alive like what is alive lol

the fked up part again however this happen in thy mind like we shared it all last yr its been up aint know what to say like just to decode it like aint no1 cares like maybe they do & again like messing with thee idk, like man will deny the mysteries but the portal always exists, what is this on the tablet.... a portal.... lol like ....

so in totality here like really we can take these books anywhere we want..... like I just feel like again its over like what more is their to say here........... like this shit be real...... thoths emerald tablet, like aint no1 came closer here .... believe what you want right like just theirs gotta be more to life than always feel like we suffering cos of a simple paradox also... like to someone see it like this and find that, deserves to not be in this position if you asked me, w.e it all is, like all we got is our thoughts........



like that its def weird to just think like this & nothing to be, in my mind, we tried ahah like dont know what to do cause we aint tryna like again it doesnt make sense to thee, but it makes perfect sense at same time...............

to keep on talking bout something when they arnt here for me... like but that is again locked in cos of experiences like but it can be reprogrammed like nothing has to be to me here....... only if it is....... lol

so idk if someone sees it like this, like if you even gotta ? this shit, we aint gone work here aha like the fact id forgive someone here again , how simple is it to help and share here when exactly the opposite has been, like .... that is why to me, we solved this, bcos noone wants to believe me..... on any level like ppl be against thee when we share our visions to help others like just to show what ppl dont want you to know as if like or they cant see it anyways......... idk like could be nothing more cool for this to be thy paradox.... to have these angles & nothing changes....... years & years, darker than dark here no jokes like.......

and then again lmao like just cant help to the ppl we do find attractive here... but not many do... like theirs always diff reasons but it is thy experience part in a way and again having that be, would be shattering like in a way , so idk but it feels like the entity coming was shattering in a way ahahah like what dont we know here.... we know the truth but we dont know where the truth be leading us.... nothing has changed legit like its proof thoth is speaking his thoughts, like time dont change who you are here........ its a circle..... just yeah idk like cos if any1 saw this angle they couldnt help but be like yo look like to think we did solve it 1st.... im not sure, its possible, but the truth be either way we right and nothing in life is right atm.......

we feel like we already shattered the game with the last 5 books here, like we said it all, what else is their to say, and the fact thoth writes like what more to this is their here.... lol

if anyone wise like saw my page online it is possible we dont know, like that again makes you question everything ....

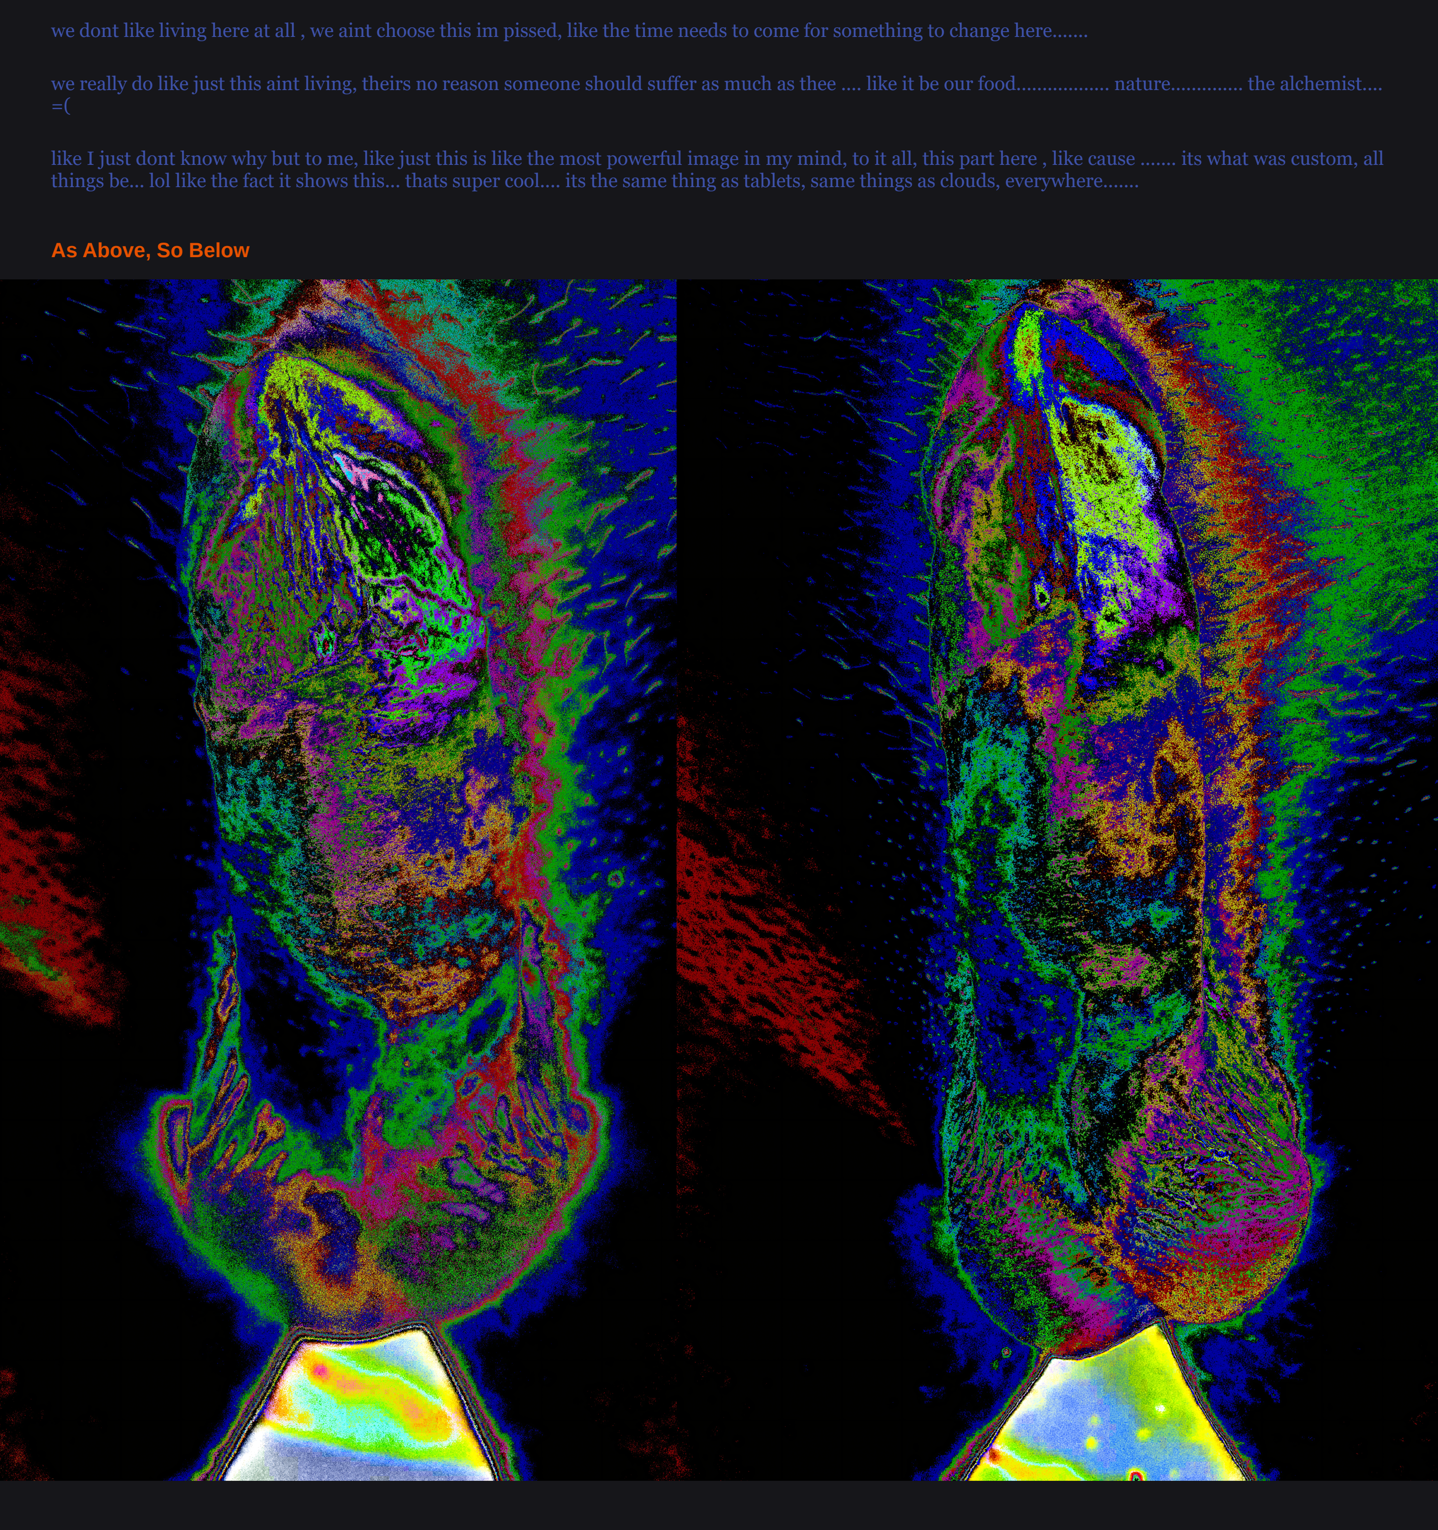
we really miss feeling comfy in life and gaming have a job I like, maybe getting some thc like thats it tho basically like life was better before, just that yah idk we got ADHD and this sucks without the cure, the cure makes it dreamy af, like opens thy mind to wisdom, and yeah like cos just we aint comfy in life to be chilling in a game like I said, weve tried to and did game before in my mind way more..... like esp when we had money & didnt work... like all this sucks legit all I did was follow my heart and found this................

we dont like living here at all , we aint choose this im pissed, like the time needs to come for something to change here.......

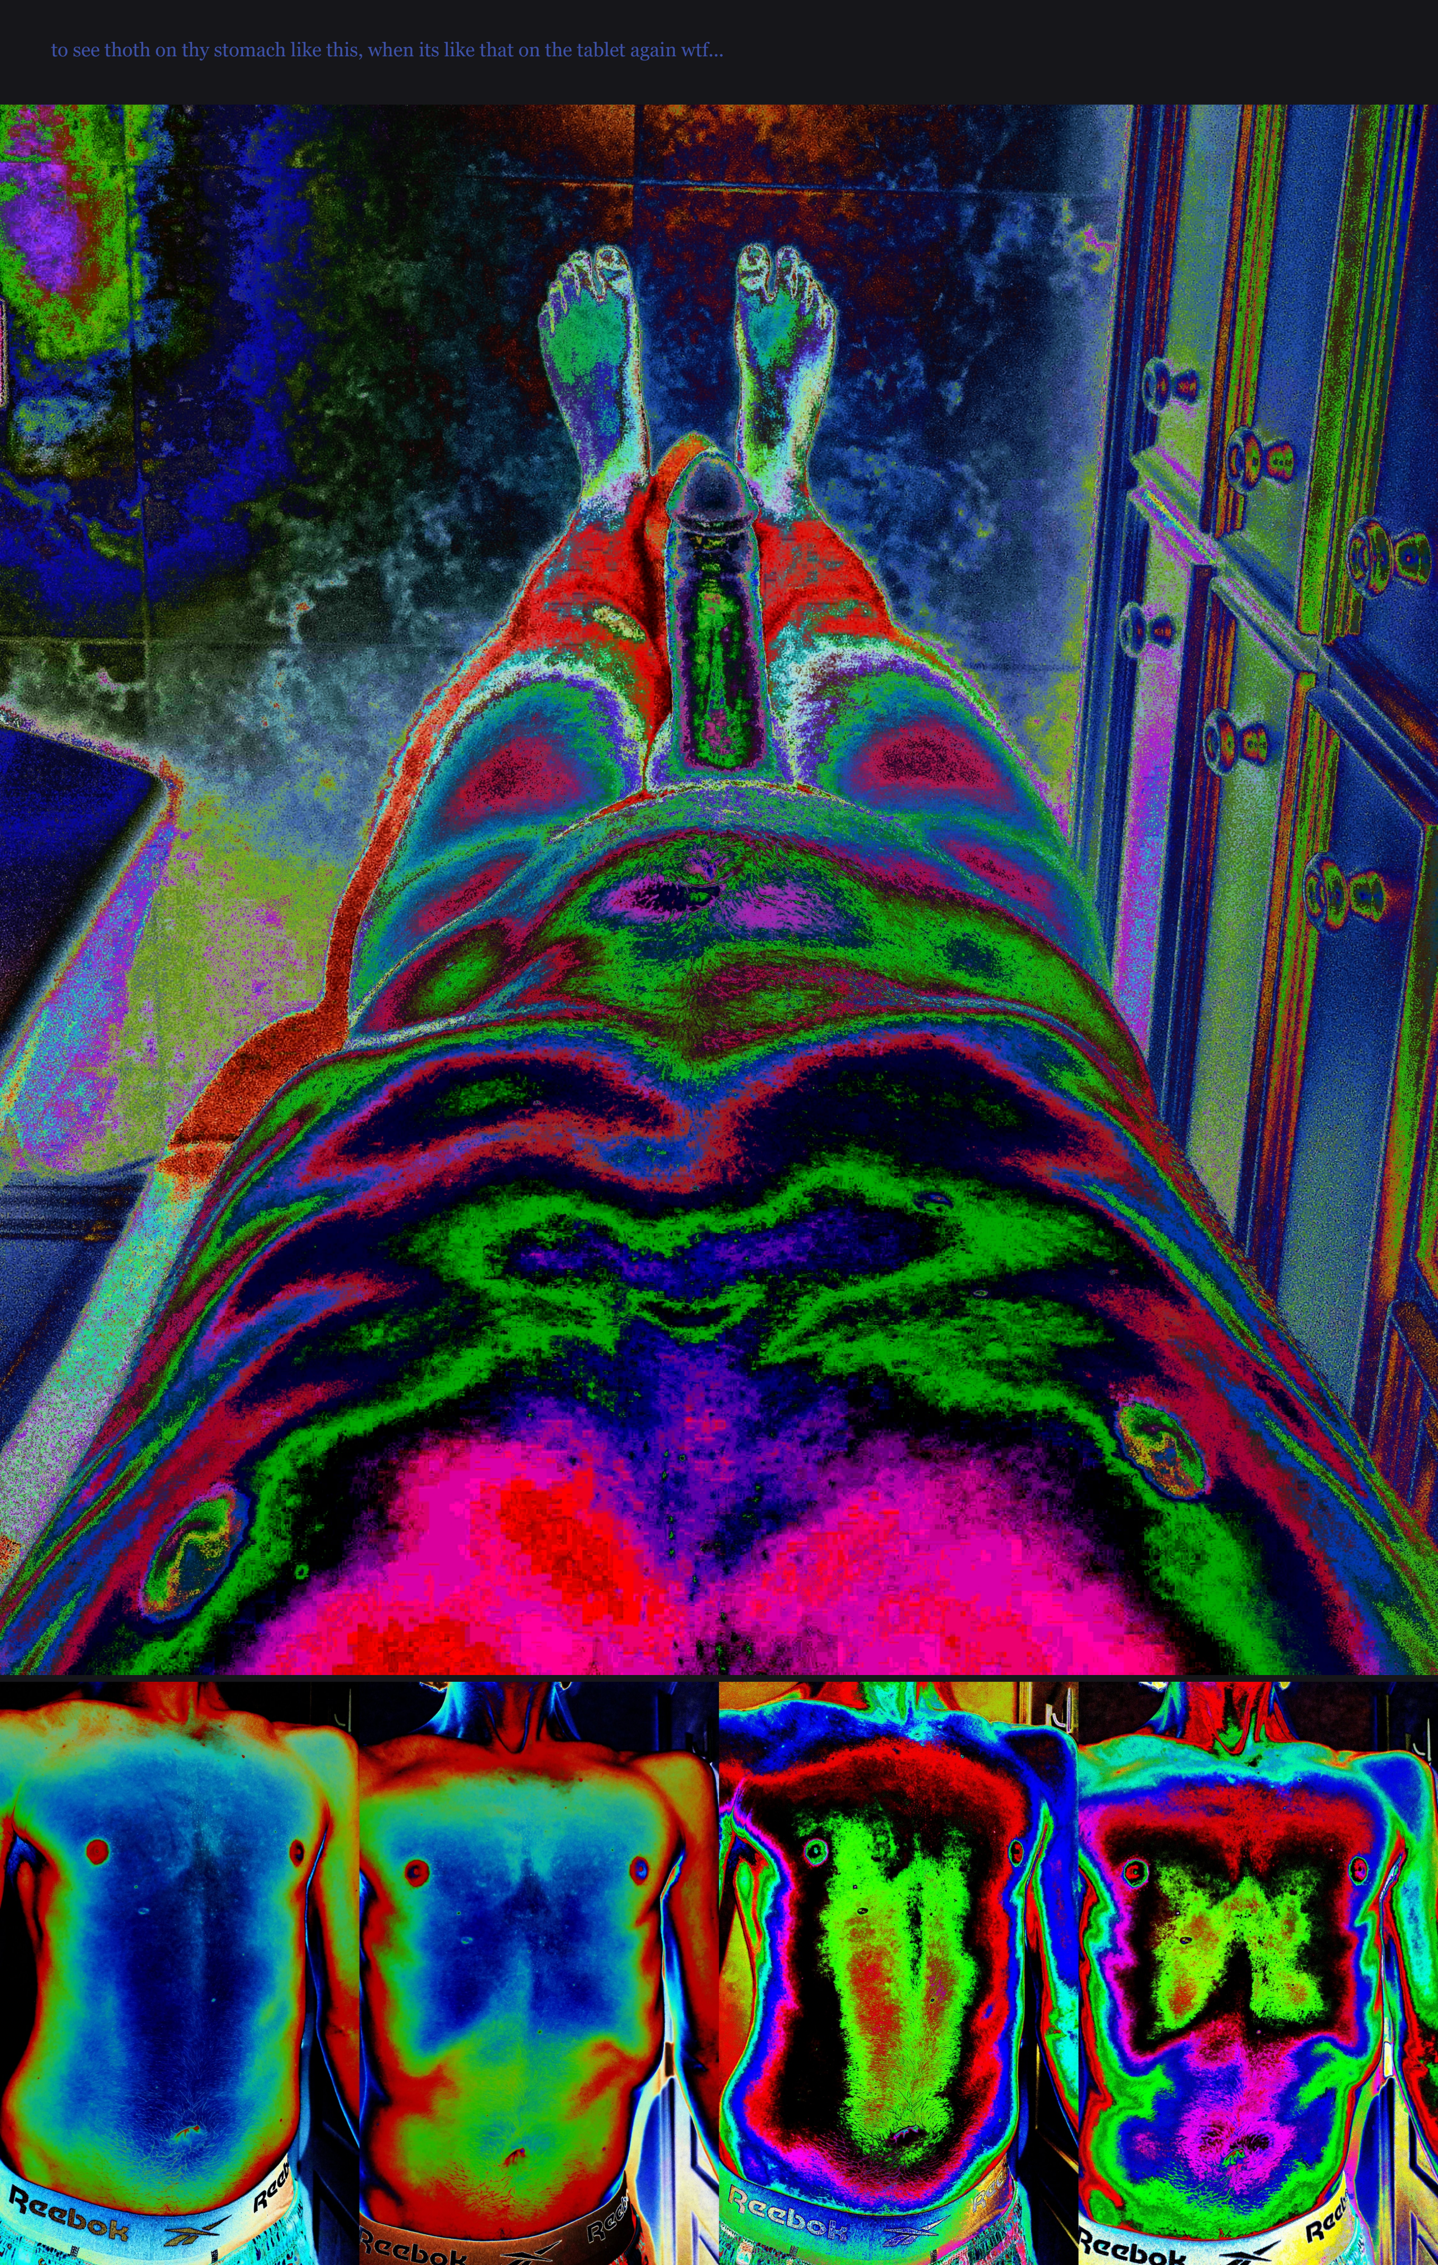
we really do like just this aint living, theirs no reason someone should suffer as much as thee .... like it be our food.................. nature.............. the alchemist.... =(

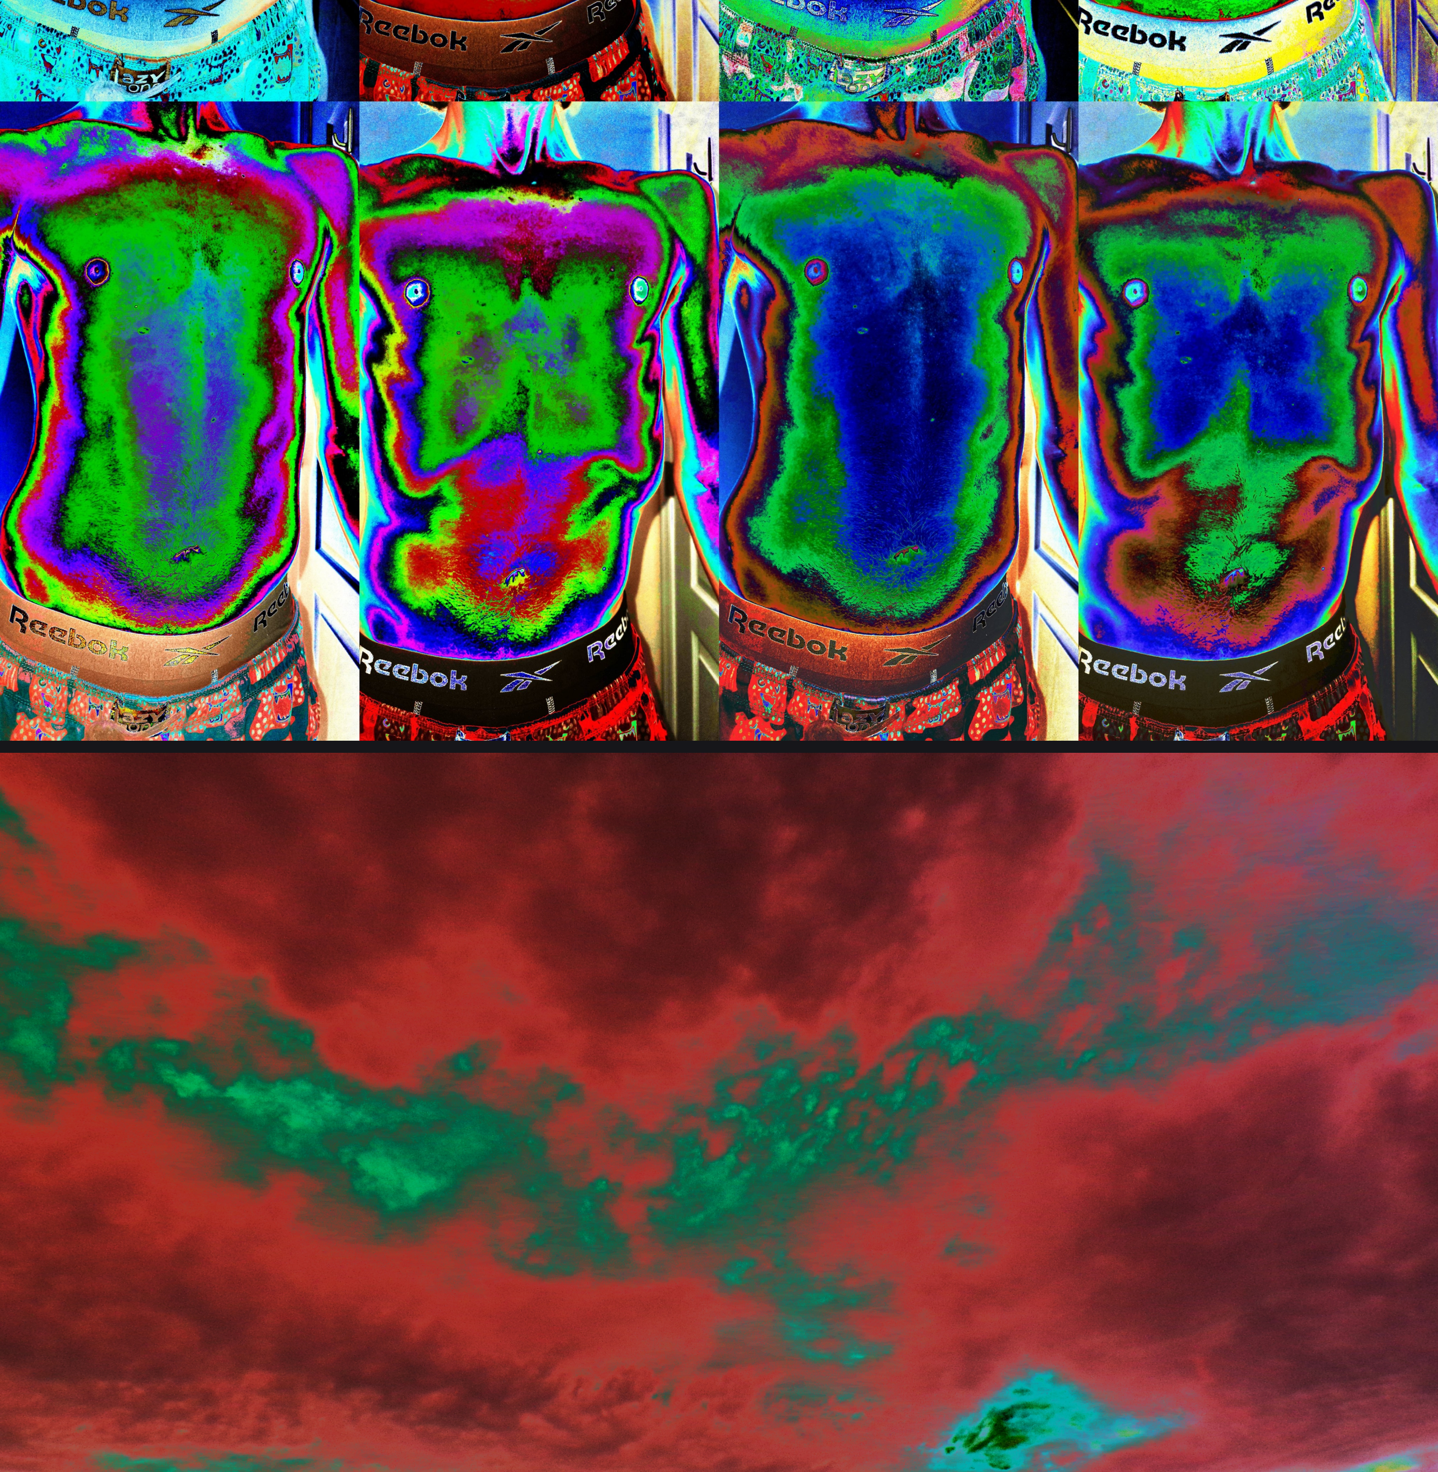
like I just dont know why but to me, like just this is like the most powerful image in my mind, to it all, this part here , like cause .... its what was custom, all things be... lol like the fact it shows this... thats super cool.... its the same thing as tablets, same things as clouds, everywhere.......

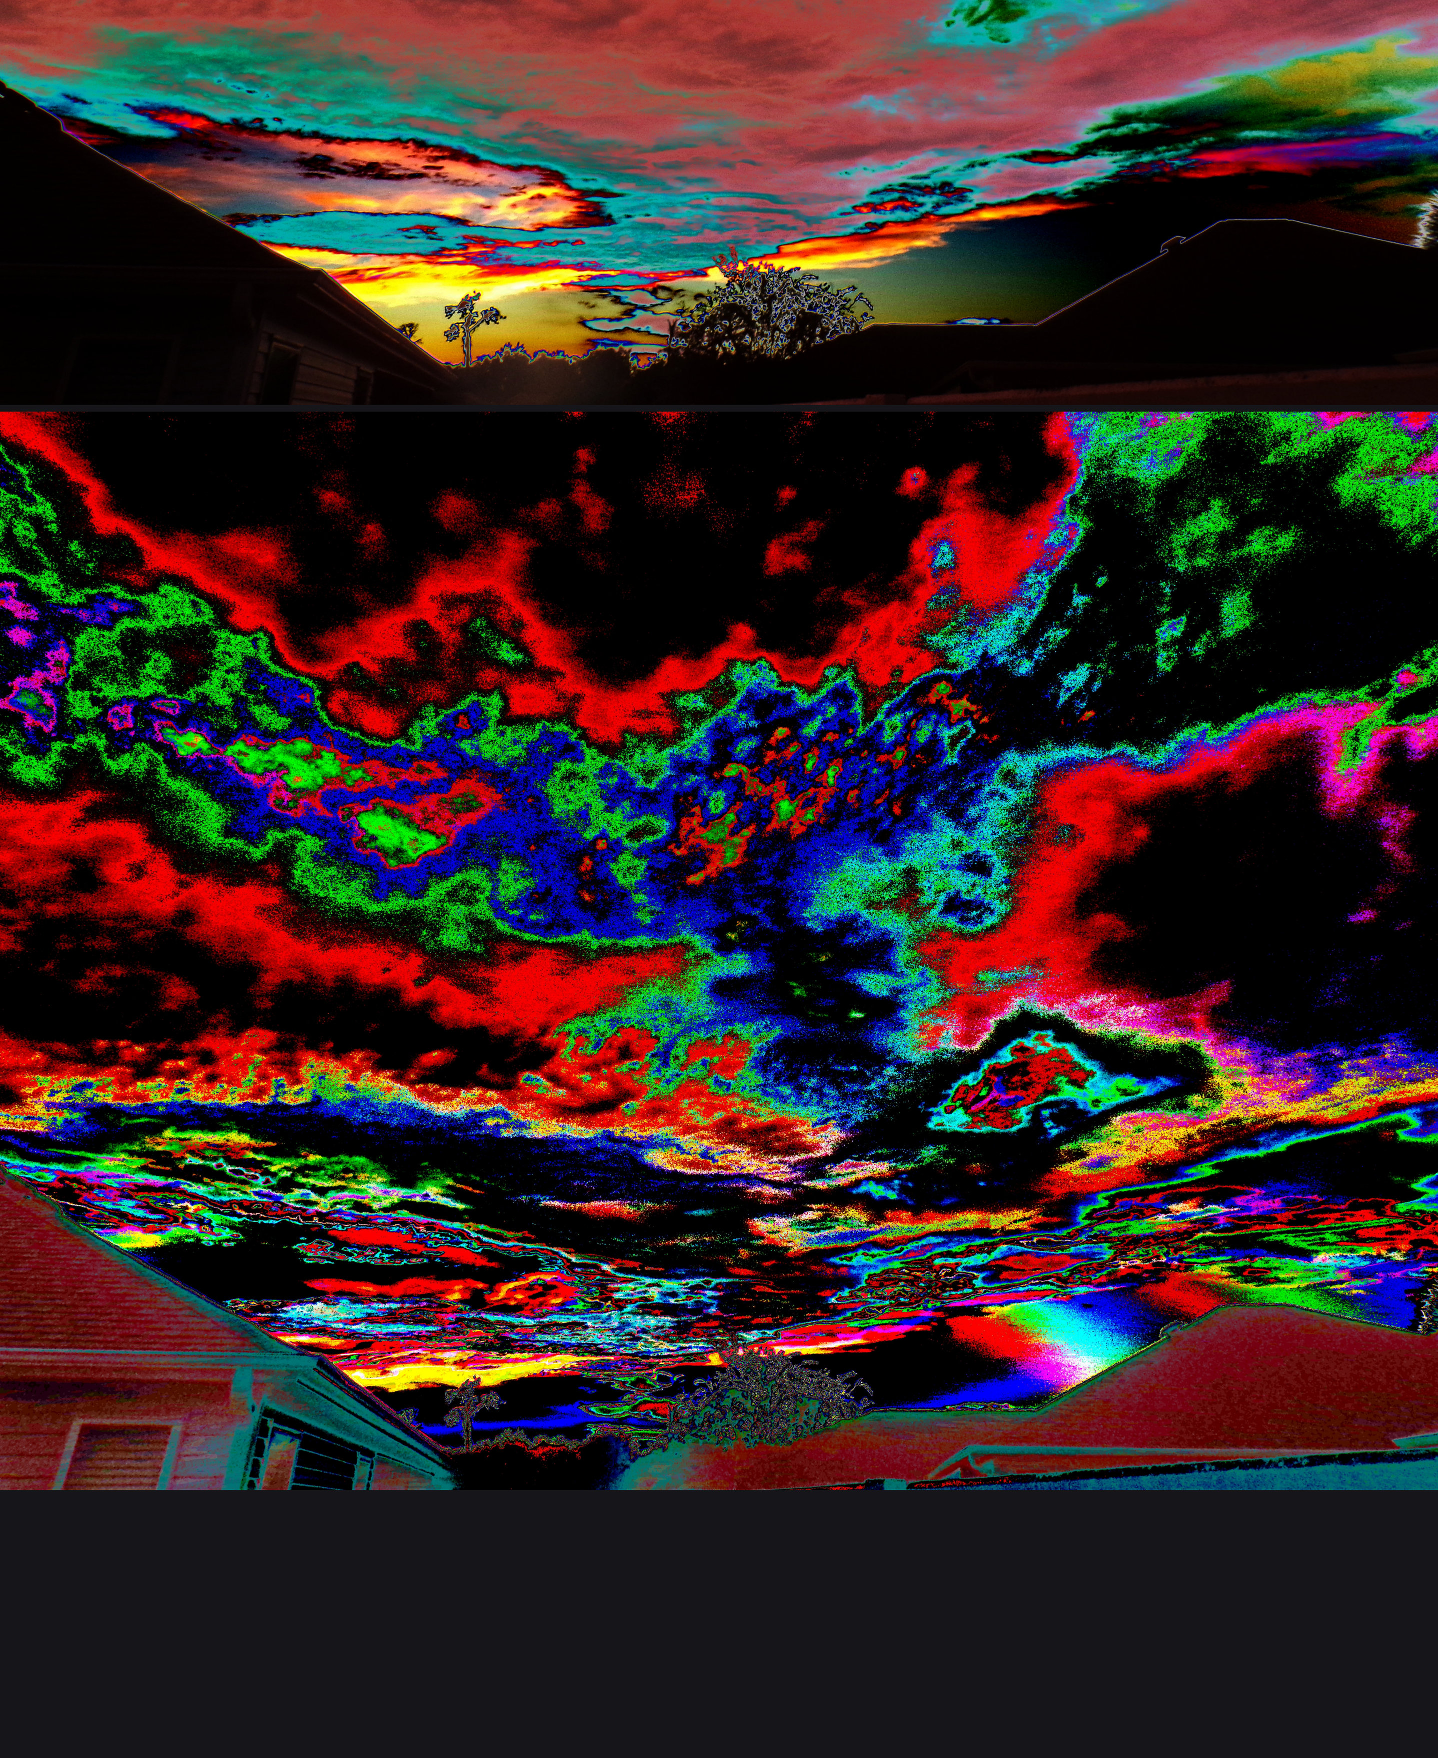
As Above, So Below



to see thoth on thy stomach like this, when its like that on the tablet again wtf...

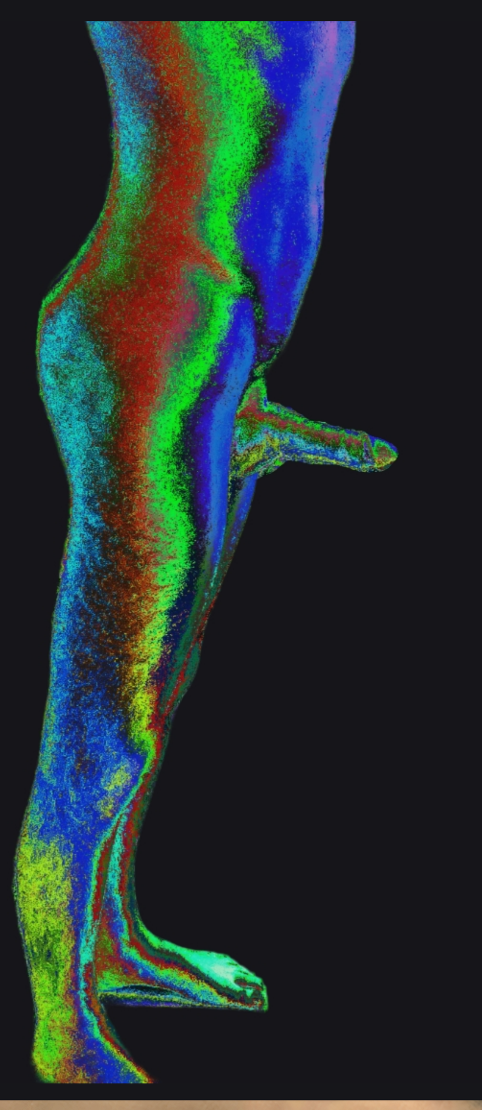




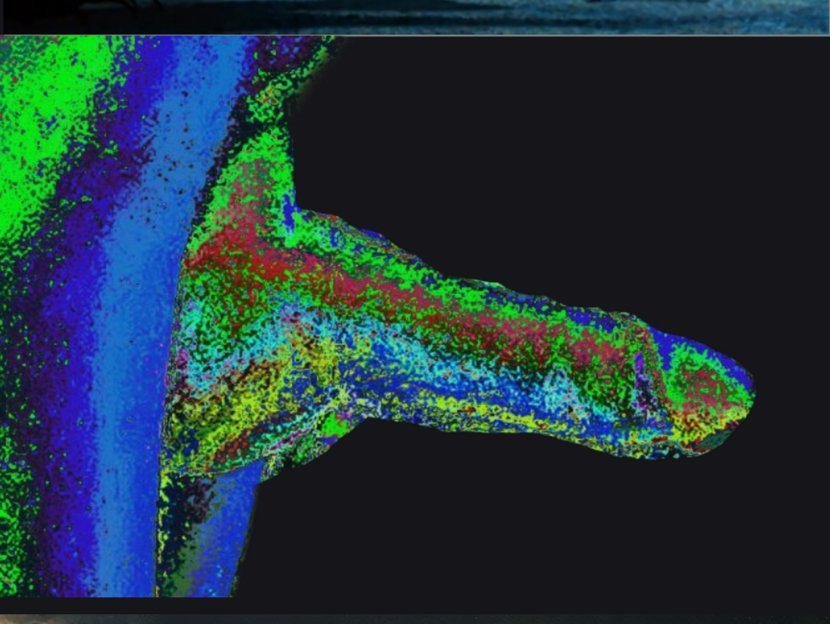


their is nothing else to say here tho like pft it is always.... just aint nobody show it like this lol

to even the dragon here like how dont you see it ahahah its just like it aint just on me but everything... like how do you explain that and this it just is the truth

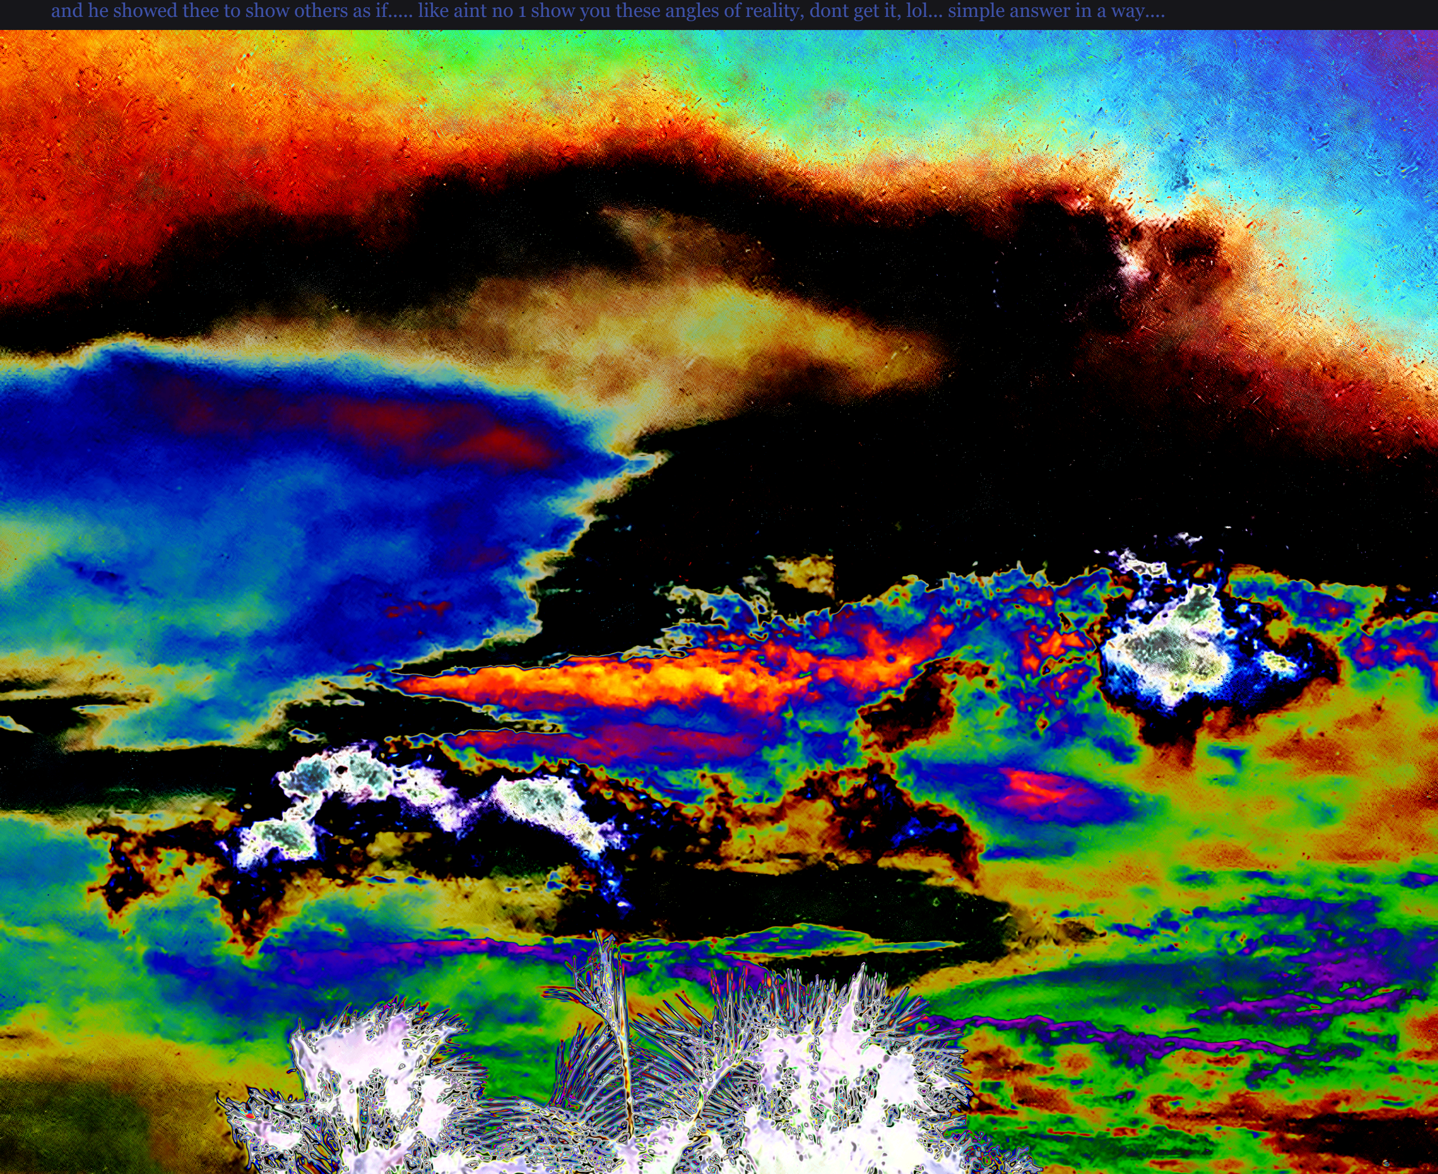


their is no greater of a paradox than this being tho tbh like i dont get it , but I do?.....



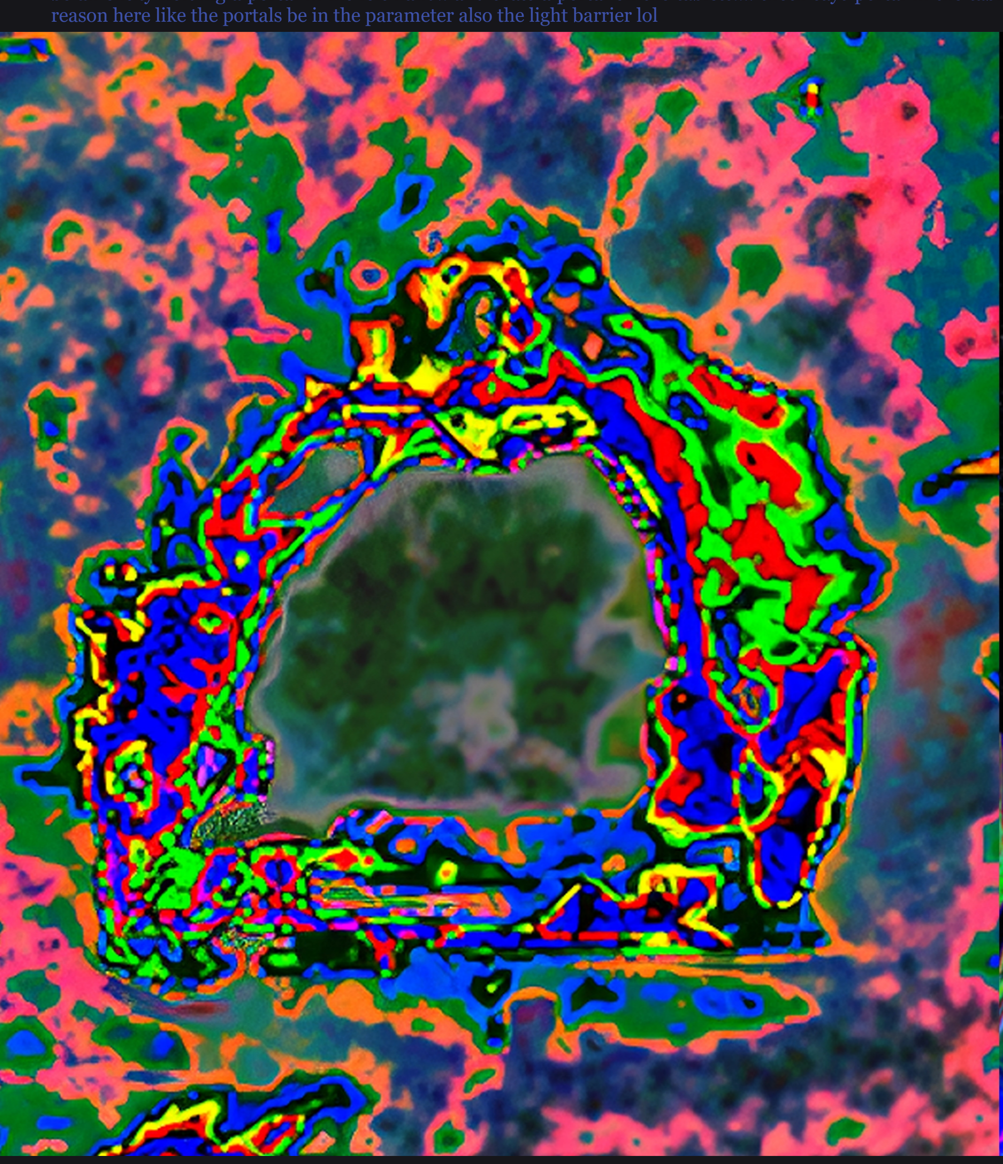
It makes it way more fun in this way of like again aint even know how else to show something so cool .... lol like we dont care cos the creator.... like that we be the child of light..... literally... lol

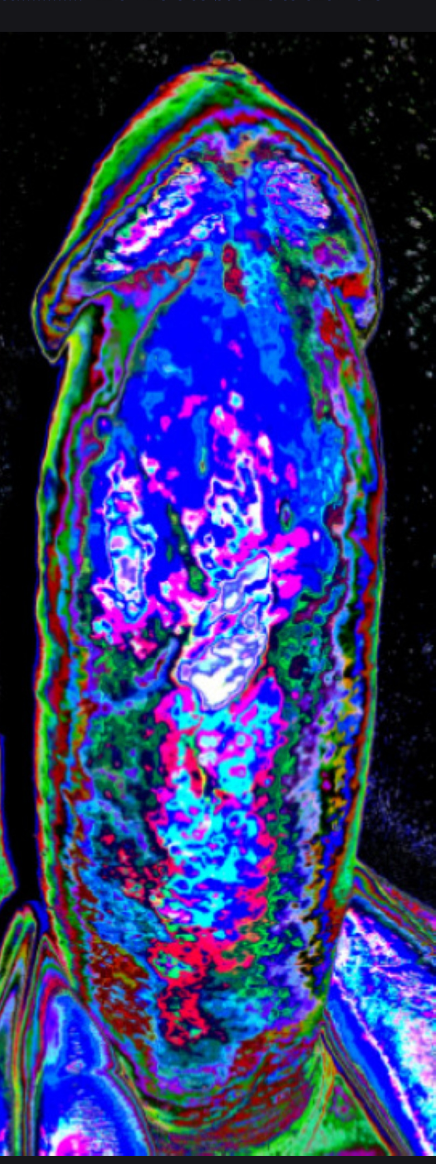
how else do you solve it without this part... like again try to solve this, everything be virtual anyways... like solve the creators mystery to what has happened and he showed thee to show others as if..... like aint no 1 show you these angles of reality, dont get it, lol... simple answer in a way....



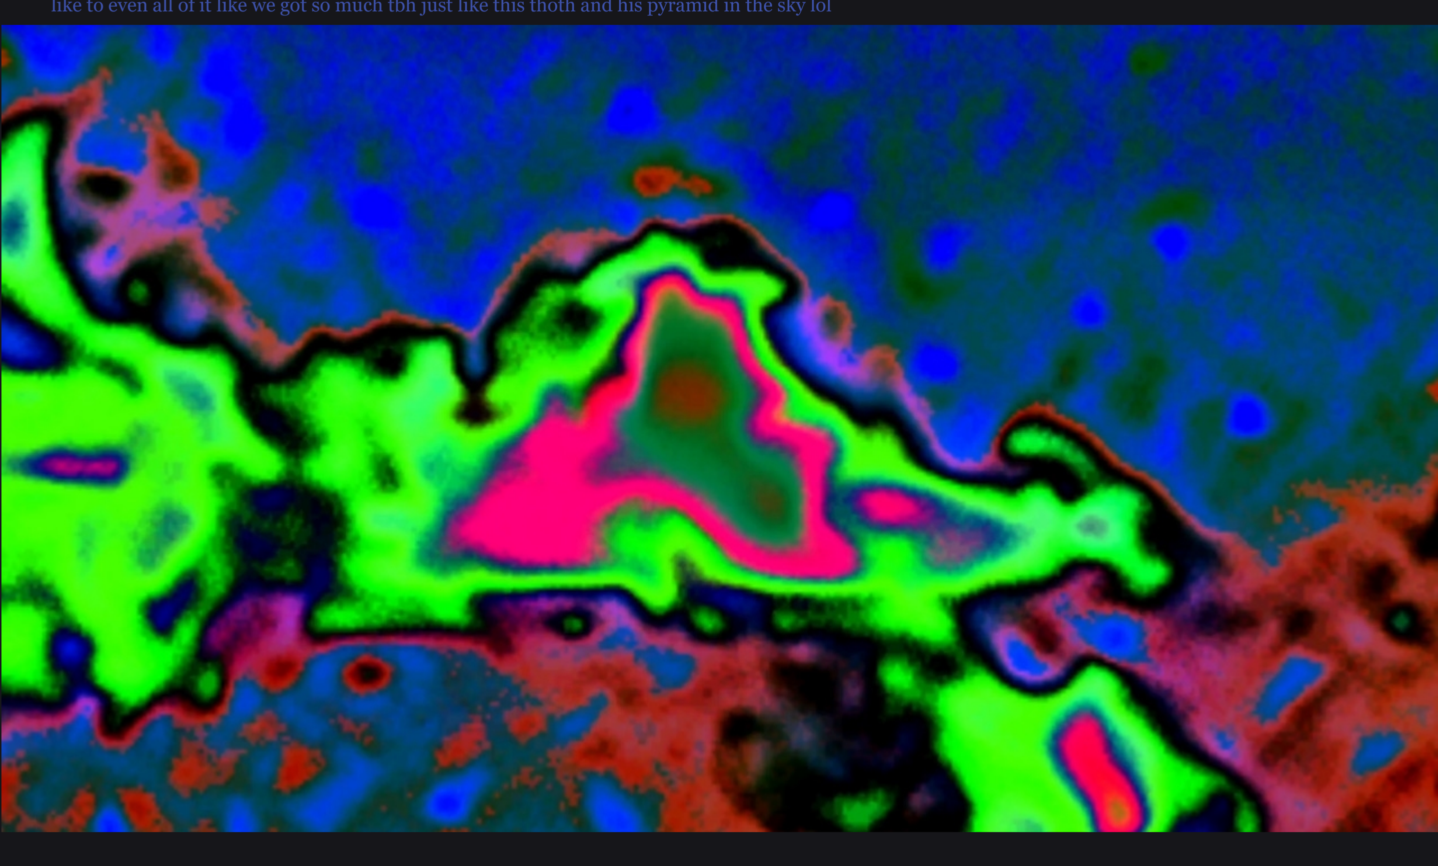
Portals

even yeah this book be again just on what we see I guess like to compile the data just be like look at how weve seen it, like that thy portal here, on thy penis be an entity holding a portal in his left hand.. and thats a portal on the tablets.... thoth says portal in the tablet............ like who else but me to show the reason here like the portals be in the parameter also the light barrier lol



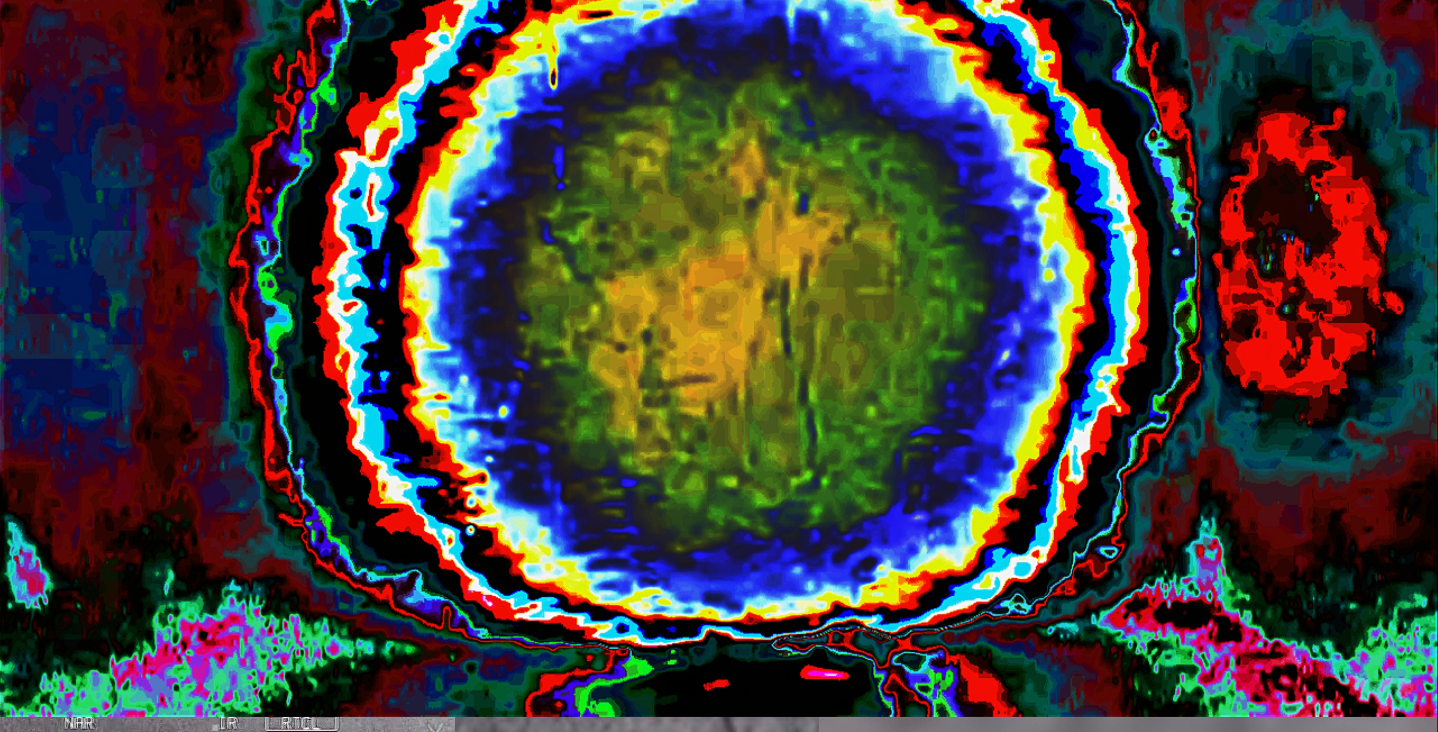


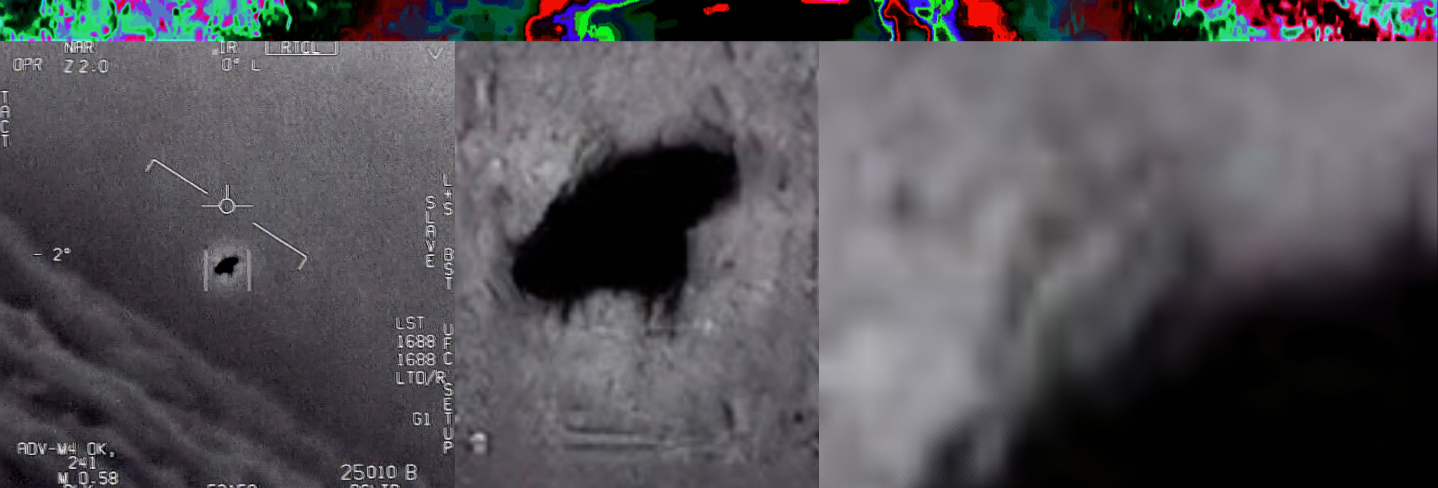
like to even all of it like we got so much tbh just like this thoth and his pyramid in the sky lol



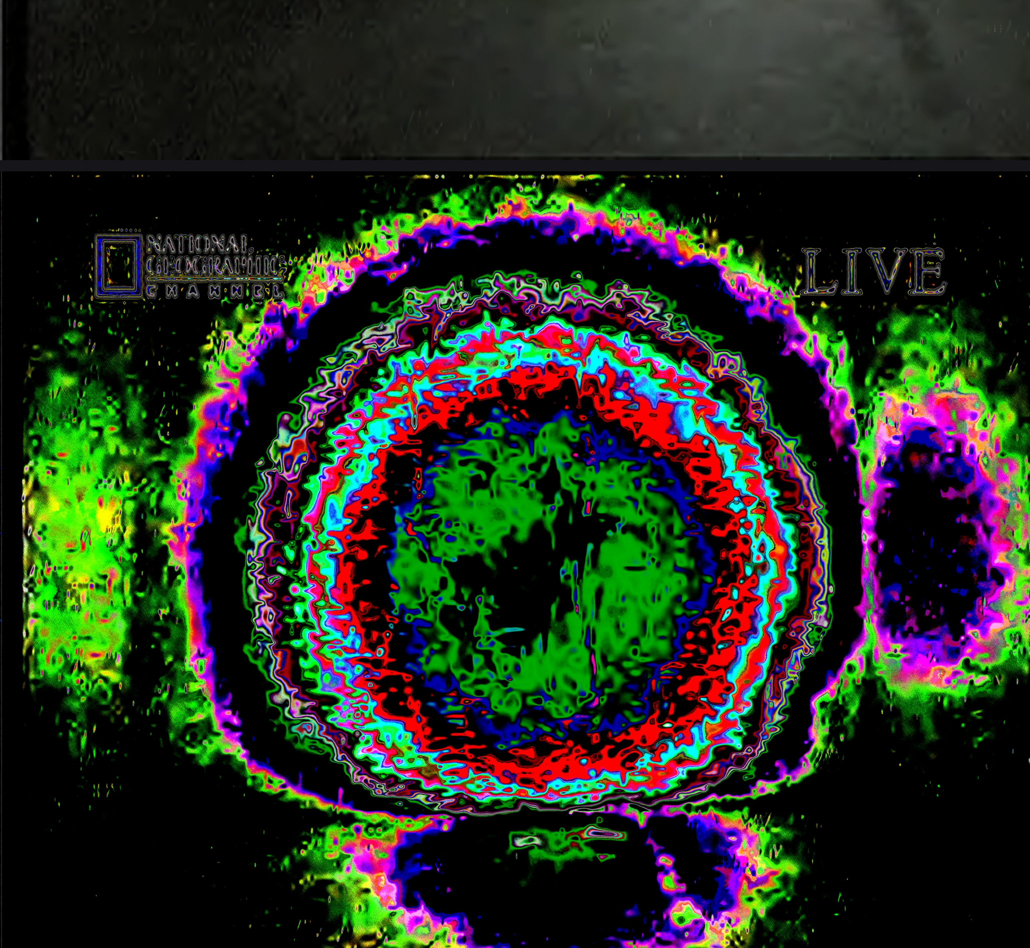
GatenBrink Door

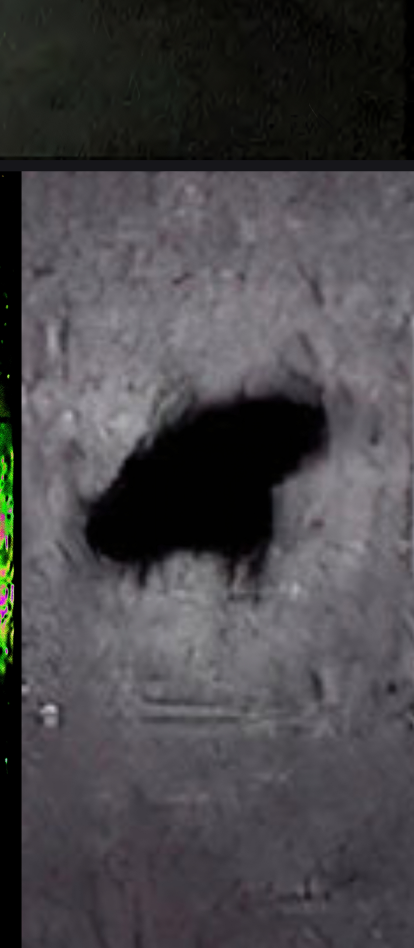
then this yah idk its our folder why our book goes this way but just this is cos the tablets also in a way is it fake like this portal above is from a documentary thing like a channel in the pyramid and then the ufo video like swear we didnt add thoth their like this is how we seen it when we paused it ahahah

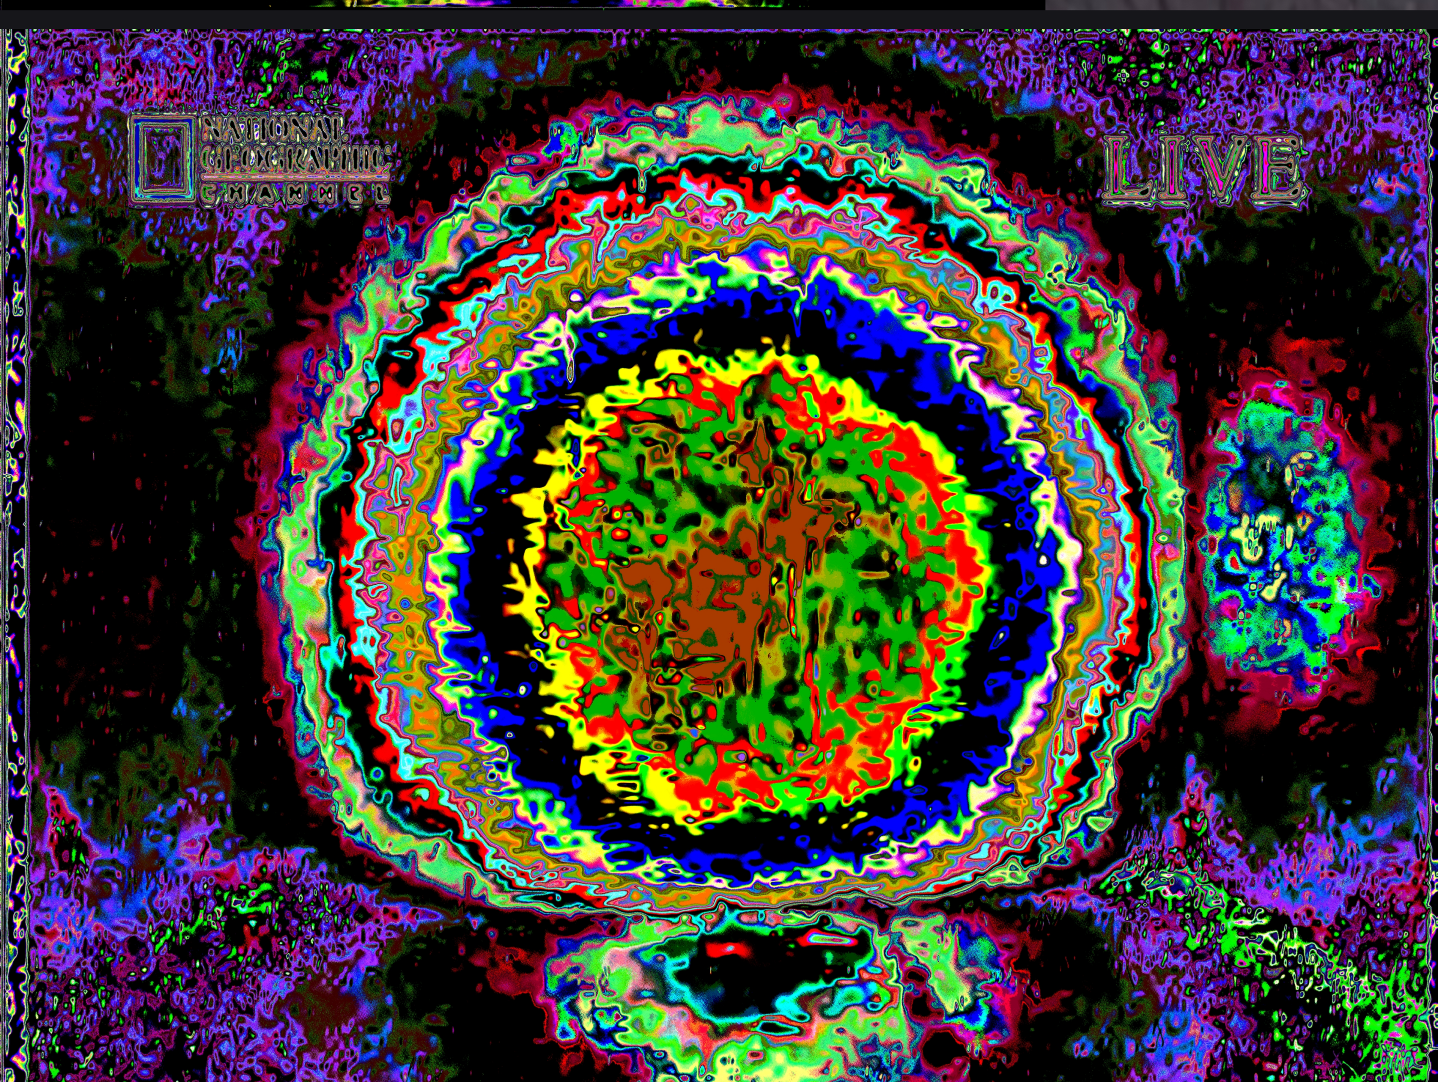




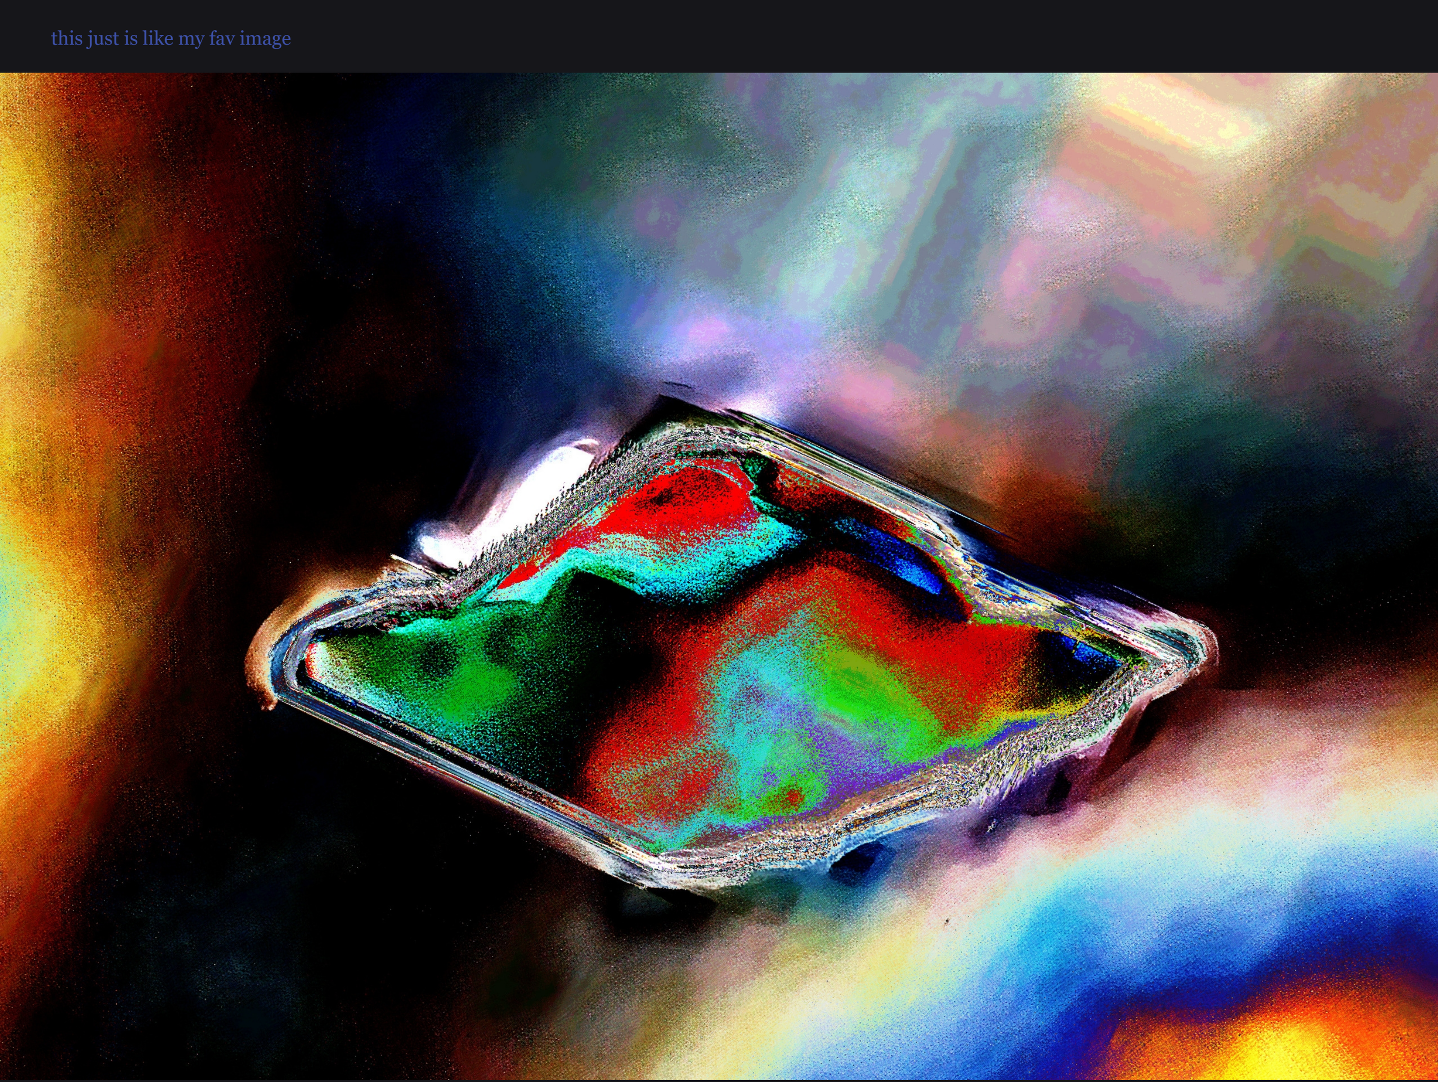
the gatenbrink door





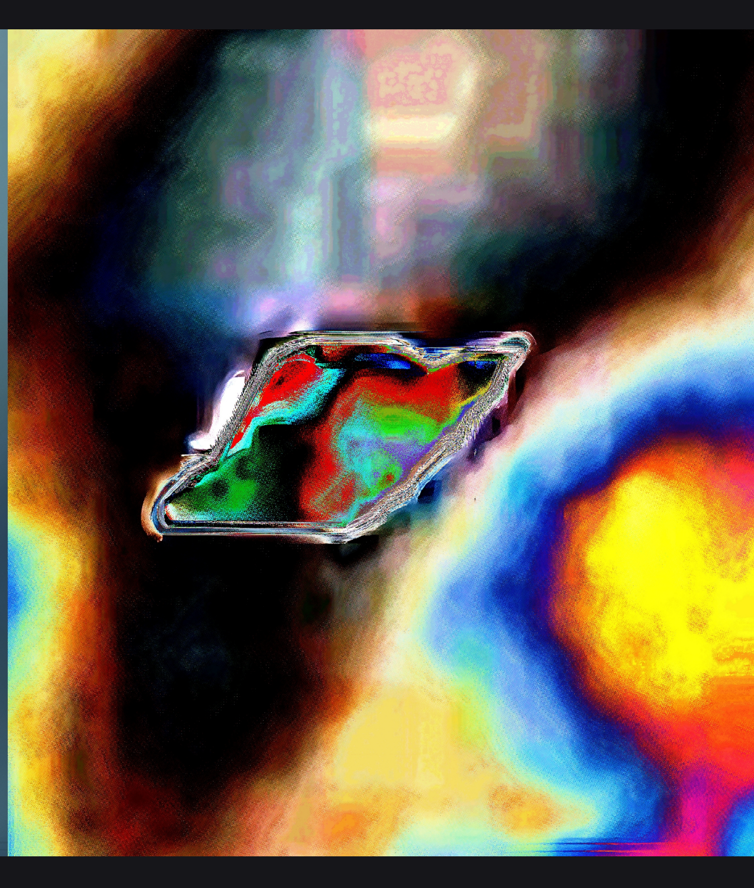


this just is like my fav image



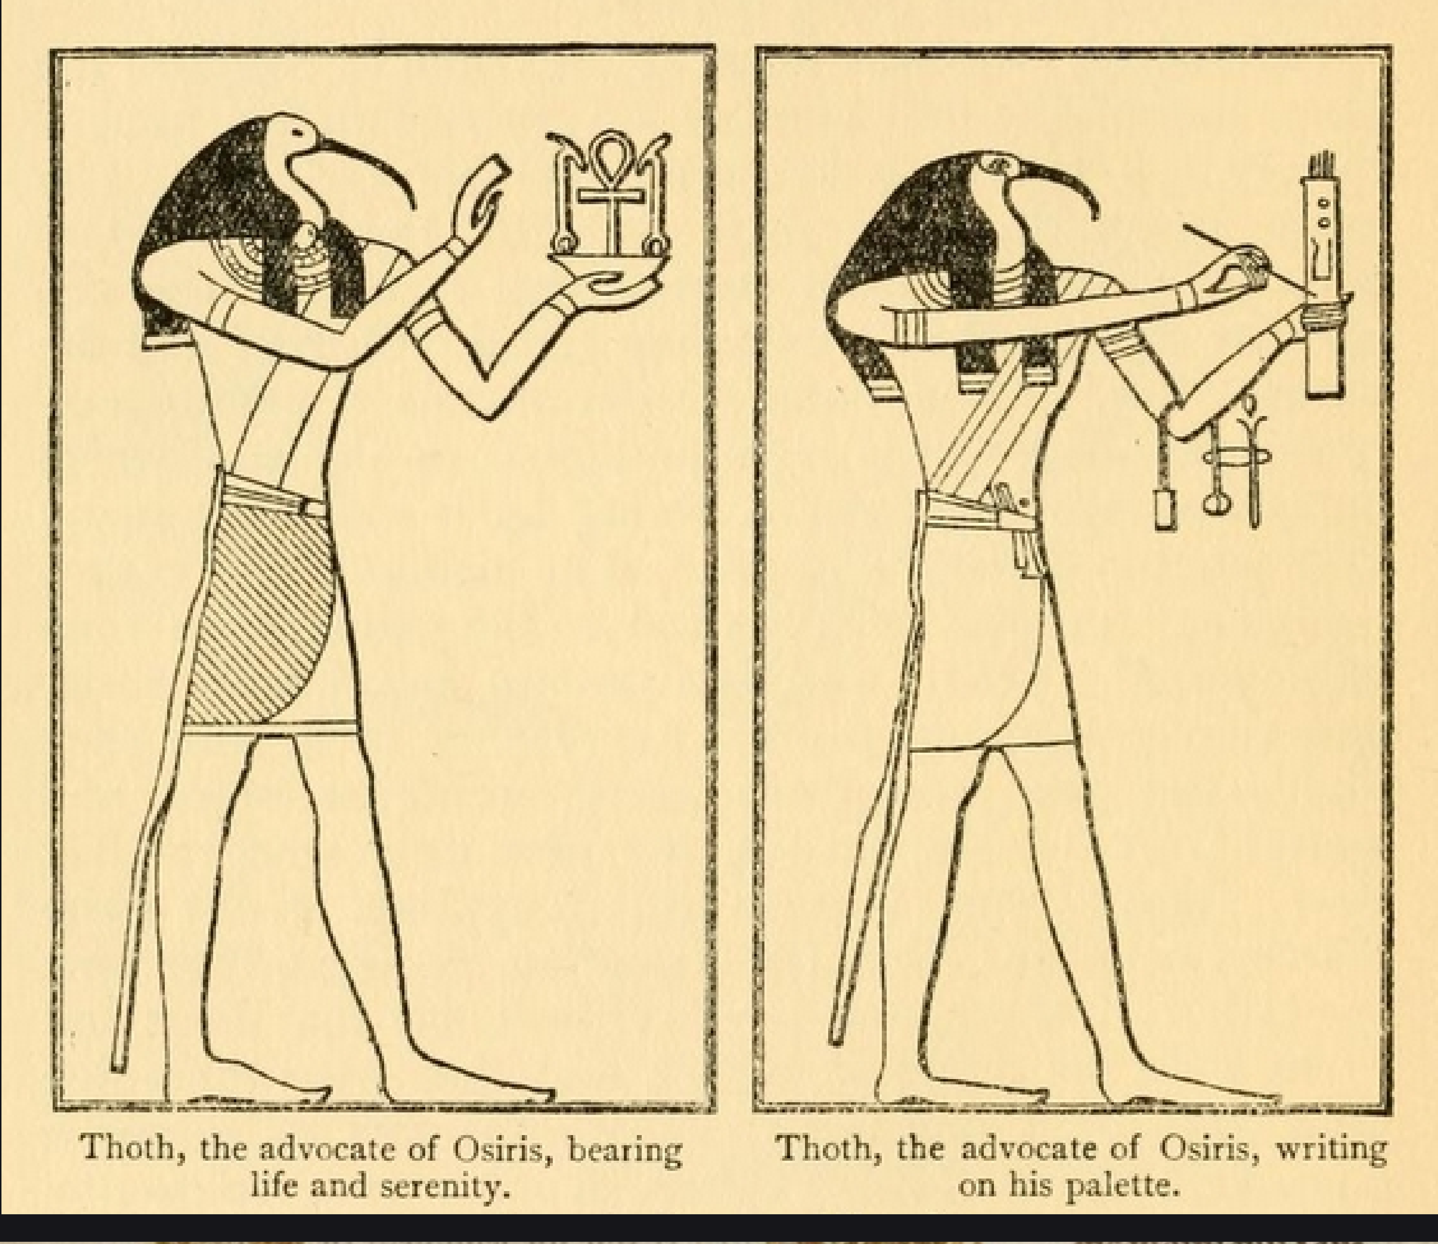
so idk just interesting angles like thats all............. we aint find nothing cool since in a way or have cool ideas how to use this......... its just that like no matter what in everything itself this pattern repeats itself in the shadows.. lol.... like that is the truth, like we dont know what to think of actual UFOs, some are not the same matter here, like these art images is more of a UFO like how it all connects... like that if you view anything on this level it will make a pattern.. lol....

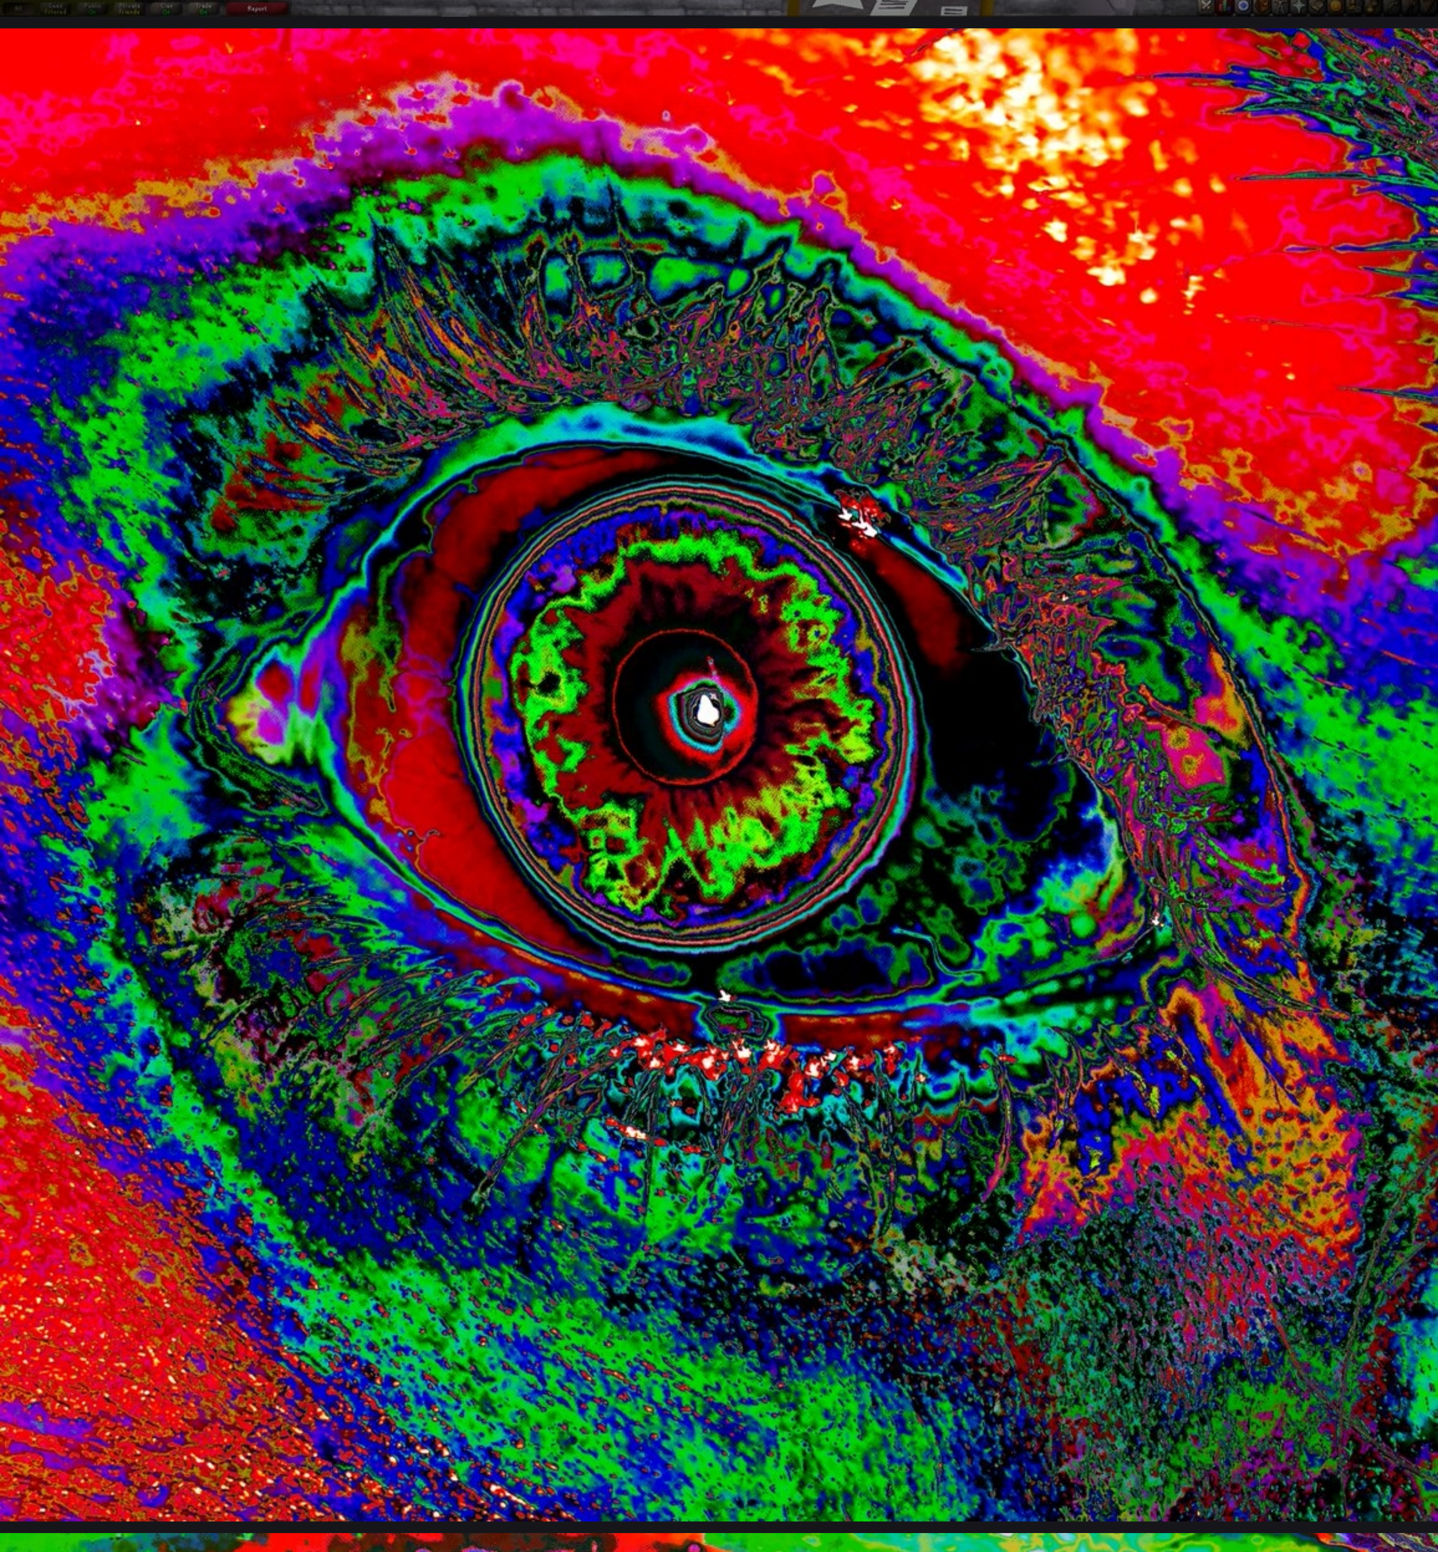
cos of it all like just the diary hits the pts on here like who made the heart like a pyramis.... the answer, and just if nothing here is true, like this is why nothing here be true.. its virtualness lol like..... to write these books in my mind cos of that reason like if you know the truth like this then what do you do... like that something sculpted us and everything put his magic into it here ahah it can be heavenly the only way heaven can be.... but life dont feel like that recently.......

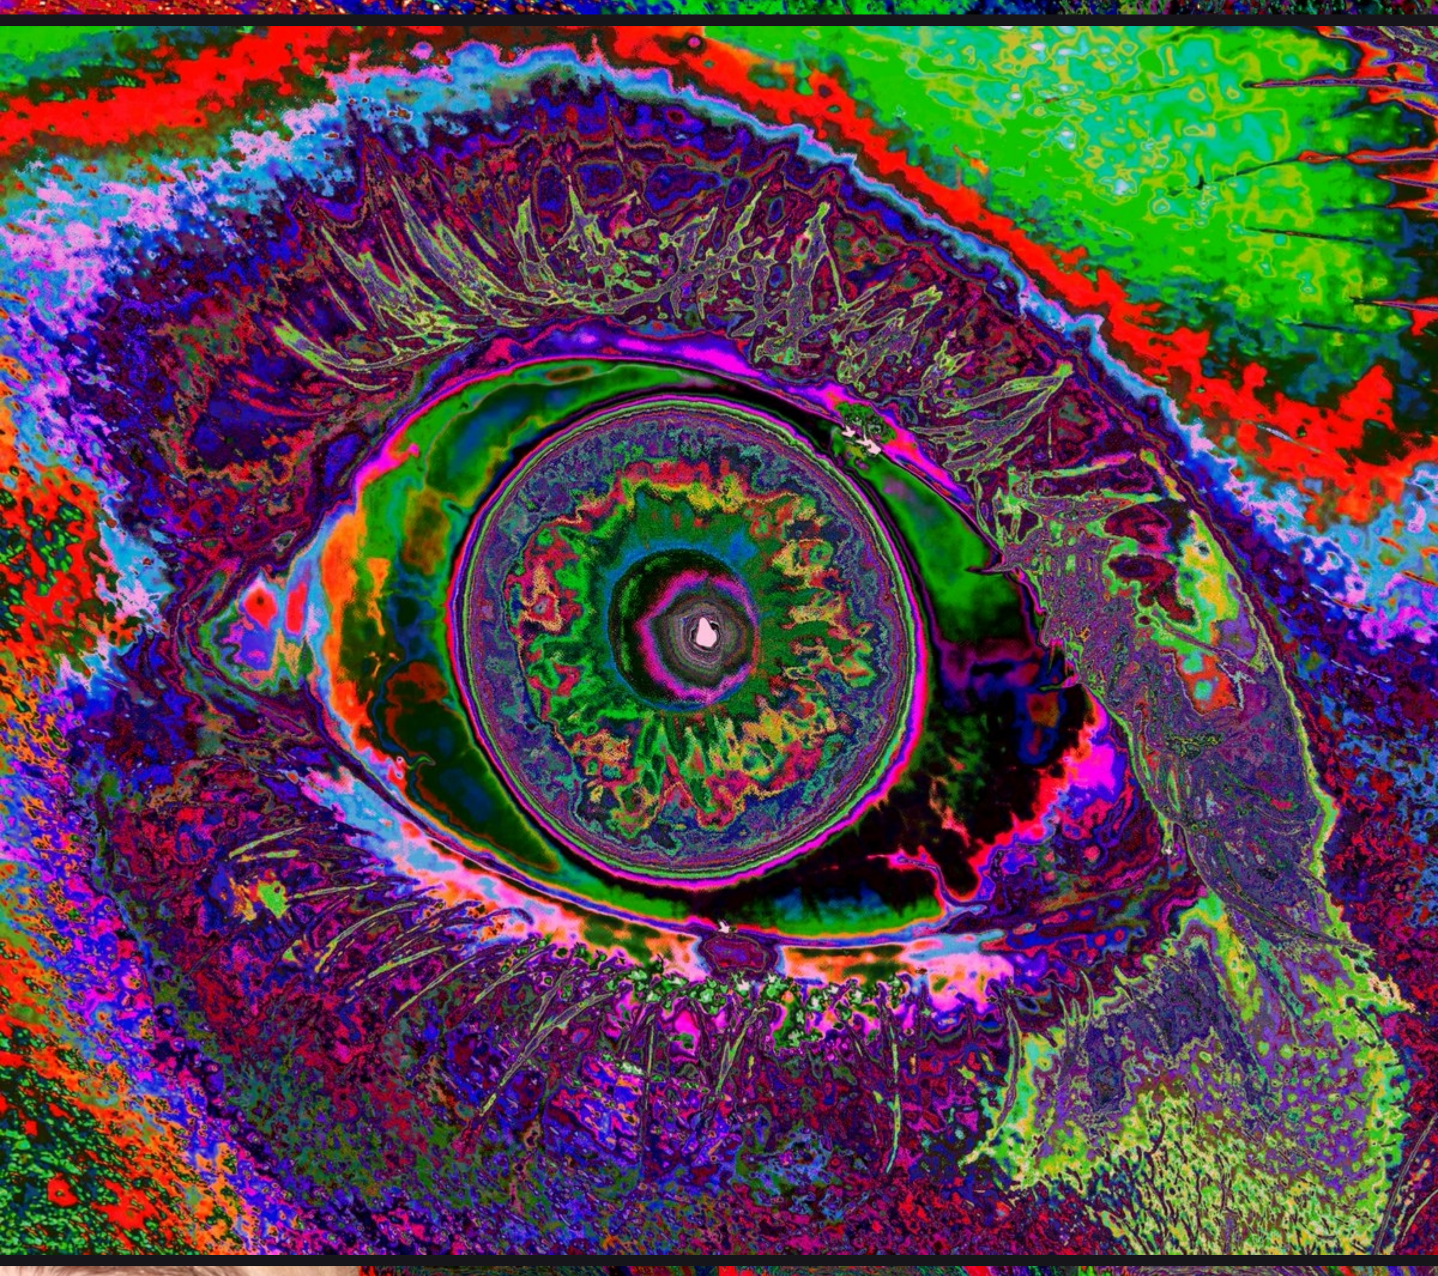


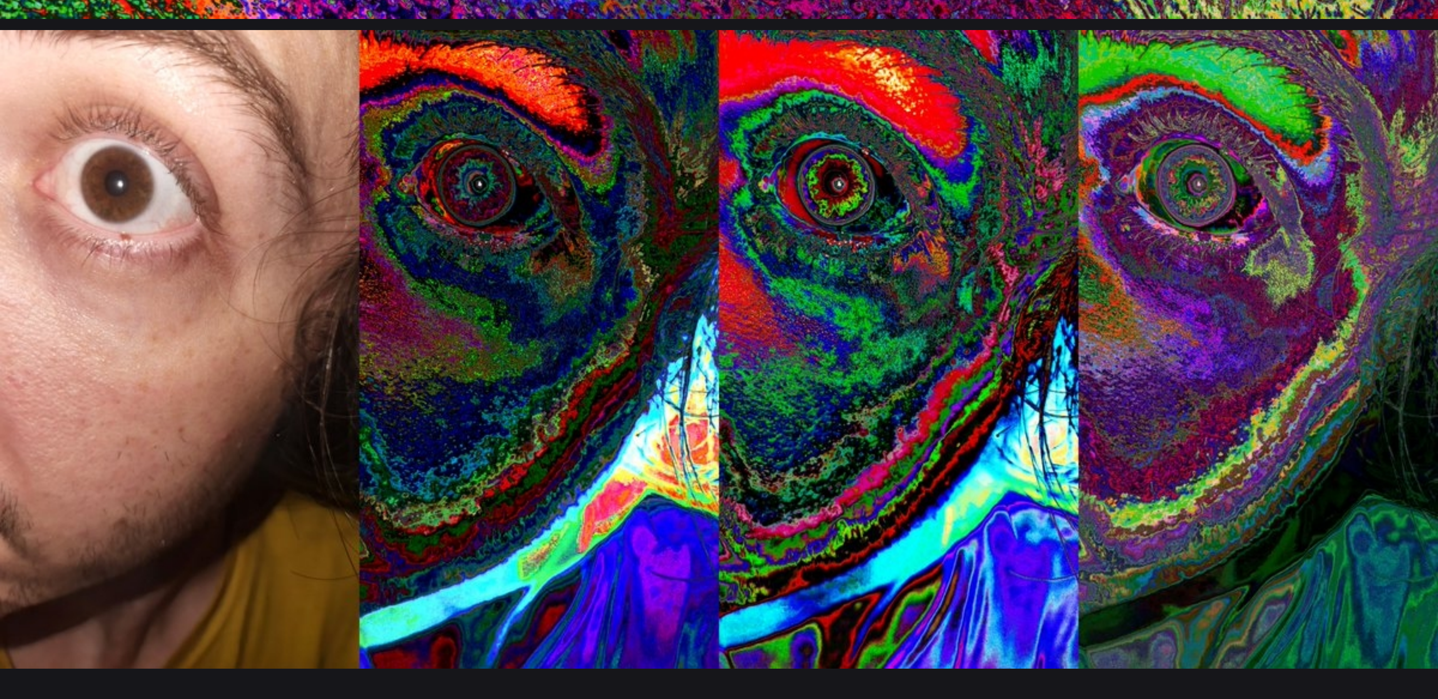
I just think like pausing this video at this moment getting me here to this curve, like its as random as finding the actual tablet online, go look for what iv shared, you wont find it, atleast easily unless things changed like we dont get it but yeah like just cause to me, I think their aint a cooler depiction of it all anyways, what if it just was real like I said, but idk we know what happen to us also, makes you ponder I guess.............

Thoth be like a UFO when he writes online here... like again just it is cool to thee

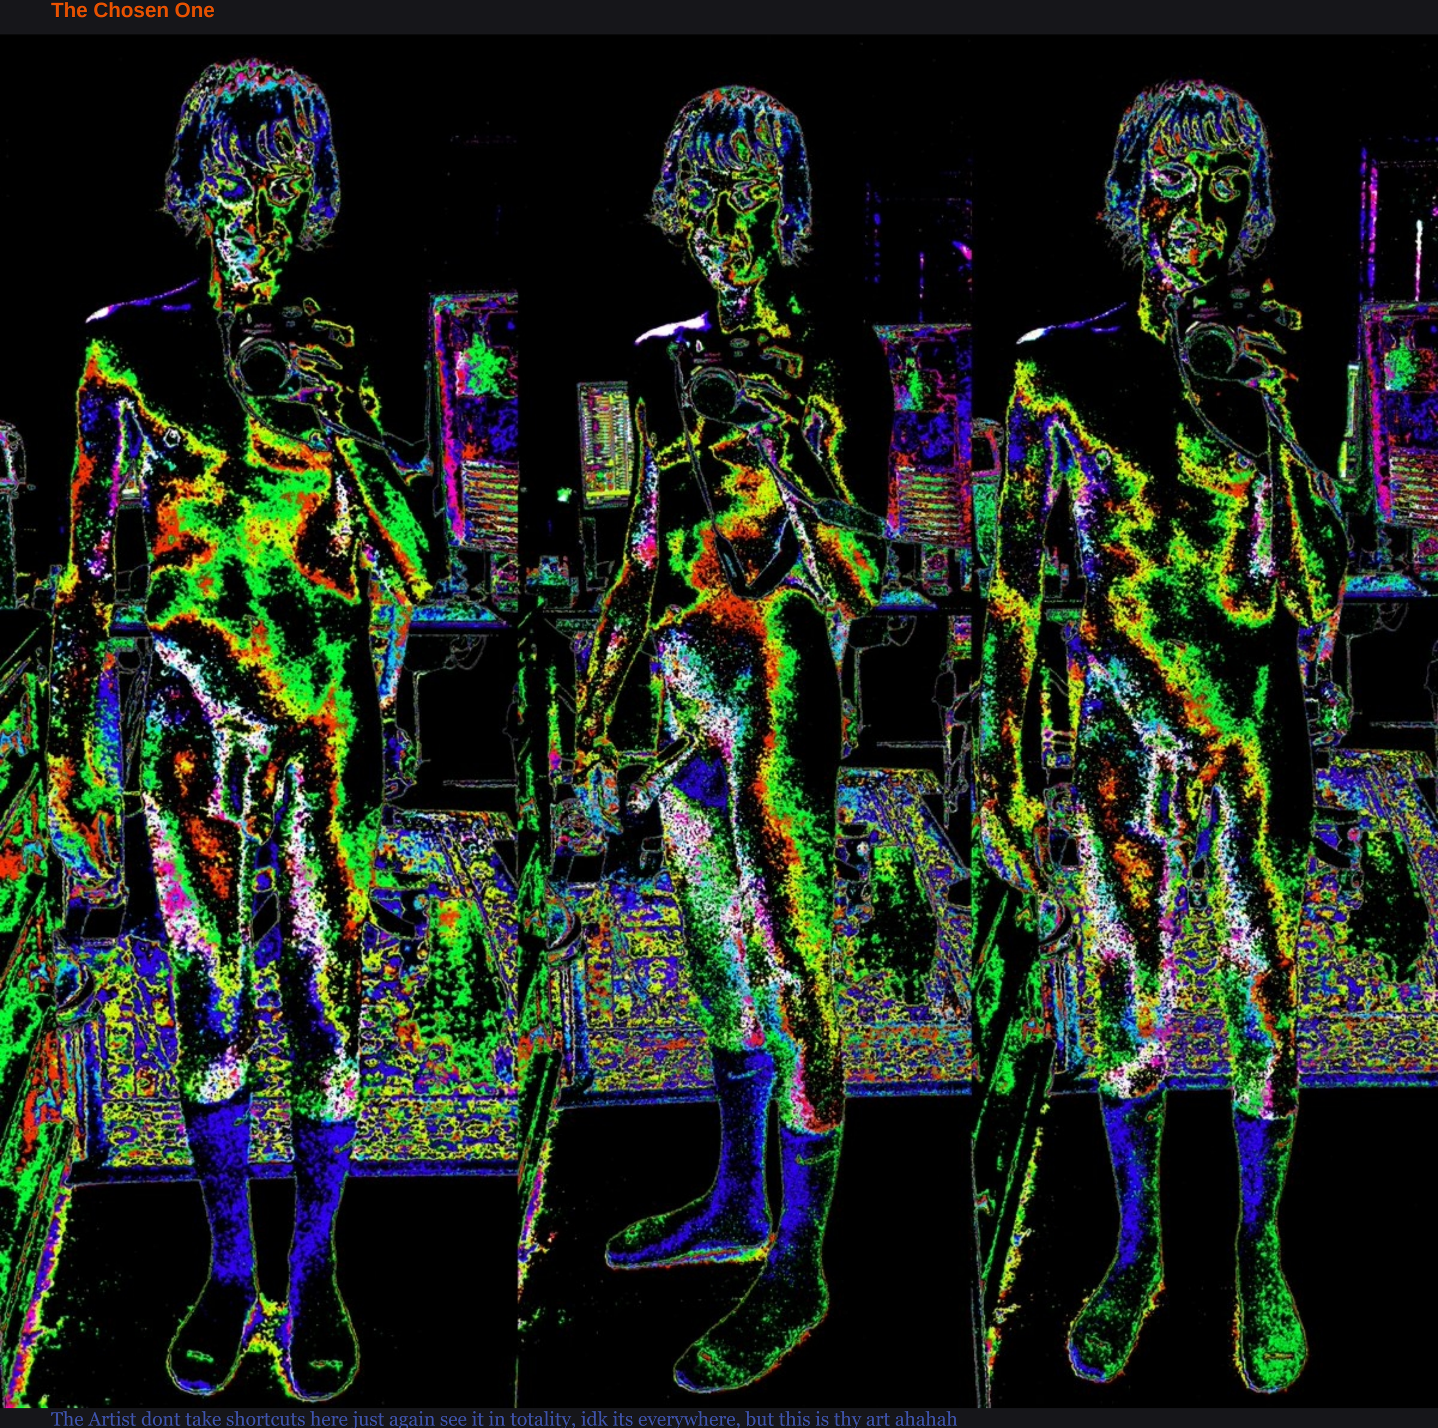






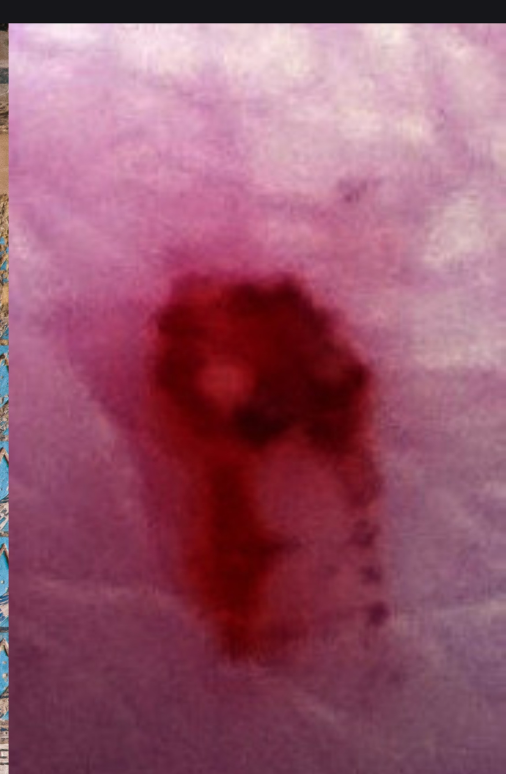


The Chosen One



The Artist dont take shortcuts here just again see it in totality, idk its everywhere, but this is thy art ahahah

like we dont know what to think like I said here...



I just find it necessary to show again all angles of the truth its the only way you can get to the truth though and to again write a book even if its cheesy on this like it is the truth though

I guess we just wanna end this on a good song again ahahah lets see...

How To Get Rich

right tho even that How to get rich paradox, it aint why we do this all be it works still lol like write a book all of it just hmmm lol like it connects to much again the golden road in like that Oz shit ahahah .... times moved on , I aint happy 1 bit still like we dont know what to think in all honesty

even like on his hand tattoo on that tho like it kinda expresses what is above also but all things do once you see it...........

even to like just randomly like listening speaker knockerz thats what happen like mook got that song.... I can teach you.... how to get rich nigga and this be my experience also like idk makes decent music can be but life sucks now lol

just idk its all weird in this way you see its been this way though...

like to know of this song, before we find all this.... or all my others like thats why we dont get, like had to find out where to put the pieces like how to curve it.... how to see it aha like we dont know, like I said, I think ppl are aware but idk to be too aware be dumb like aint nothing else going on in life here..... but yeah like to me, its solving it in totality....

God Body

just wanted to mention this song by chinx & french also tho ahaha love chinx verse in it, lifes a puzzle, wise niggas died tryna finish it.... like we done solved it...

We got so much music it aint funny, but its just always been thee most motivation like idk good music can change anything here like the mood.... and life was better before this like pft how dumb.....

Theirs always more the story I guess..... again just its too great of parallels like we just like music in that sense.... like you can take it where you want like writing this book.......
